STUDIOS OPEN 10AM-5PM | **FREE ADMISSION**

WELCOME TO THE 22ND ANNUAL HWY 62 OPEN STUDIO ART TOURS, brought to you by the Morongo Basin Cultural Arts Council. Artists, working in all mediums, open their studio doors to share their process and bodies of work with visitors far and wide. Although a majority of the studios are located along paved roads, there are many located off the beaten path in uniquely inspirational spots accessible by unpaved dirt roads. We invite you to use the directions in the catalog or GPS to navigate to the studios on your self-guided tour. As you traverse HWY 62, you'll notice the numbered road signs and arrows dotting the highway, pointing you to where you want to go.

BEFORE YOU START YOUR TOUR, stop by the Artists Collective Show at the 29 Palms Art Gallery located at 74055 Cottonwood Drive, Twentynine Palms, CA 92277. The Collective Show is a sample of what the artists have to offer and will showcase the breadth of work of the participating artists.

THE SEEDS OF OUR MODERN OPEN STUDIO ART TOURS were planted back on April 7, 1969 by the 29 Palms Artist Guild as the Palm Sunday Art Tour, with five open studios. The last Palm Sunday Studio tour was held in 1980. In 2000-2001, Lucia Grossberger-Morales began the revival of the modern studio tour. The following year, Chuck Caplinger, Michael Callan, Owen & Audrey Gillick, Kit Brooks, Cathy Svetla, Linda Schrader, and Spelman Evans Downer created the Morongo Basin Cultural Arts Council to produce the 2002 Desert Arts Festival.

THIS 10-DAY EVENT featured about 47 Artists in their respective studios, during alternating weekends between the east and west ends of the Morongo Basin. Music, dance, and theatre performances were also held during the 10-day festival, giving artists and visitors a fun-filled time to remember in our desert. Over the years, the Desert Arts Festival has evolved to become the HWY 62 Open Studio Art Tours, which takes place over three weekends each October.

GIVEN THE ABSENCE of a single Director, the MBCAC board has chosen to work as a cooperative committee to combine all of the best ideas and experience from past years, with the specialized expertise of board members and volunteers to plan, organize, and launch this year's event.

PLEASE REFER TO THE BACK PAGES of of this catalog to get to know our many sponsors, including hotels and restaurant recommendations. Drive with caution on dirt roads and enjoy the very special scenery as you venture into our High Desert. Keep an eye out for rabbits, coyotes, roadrunners, hawks, owls, and a variety of other desert creatures.

ABOUT THE MBCAC

THE MORONGO BASIN CULTURAL ARTS COUNCIL (MBCAC) is a nonprofit organization created in 2001 by a dedicated and passionate group of local artists. Its mission is to inspire and enliven the community through the arts, and enhance the cultural and economic health of the region. Building community through the arts, the Arts Council continues to be a leading source of information, inspiration, and energy for artists and patrons throughout the Morongo Basin and beyond. For more info, visit: www.MBCAC.org

DISABILITY ACCESS ADVISORY

THE HWY 62 OPEN STUDIO ART TOURS, a free, self-guided opportunity offered by MBCAC, is committed to providing an equitable and inclusive experience for our patrons and artists with disabilities. The 29 Palms Art Gallery is located on a paved road and is wheelchair accessible. Stop by to see artwork by many of our studio artists participating in The Collective Show. The private, home-based studios featured throughout the three weekends have varied access depending on individual access needs. We recommend contacting individual studios to discuss access. For example, some studios may have paved driveways, whereas others may only have gravel or sand pathways. Some studios can also accommodate bus parking. Connecting our artists with patrons is our passion. Email: arttours@mbcac.org for more information.

ABOUT THE HWY 62 OPEN STUDIO ART TOURS

The HWY 62 Open Studio Art Tours is an annual multi-disciplinary desert-wide open studio art tour and one of the largest events of this kind in California. The concept of open studio events in itself is a fairly common thing. But in our desert environment with questionable GPS, hand-painted or missing road signs, and vast vistas to the edge of the earth, the open studio becomes an extraordinary thing.

HOW TO USE THIS CATALOG

PACE YOURSELF

Although the Art Tours are held over three weekends, it's unlikely that anyone would be able to visit every single studio listed in this catalog. There are 179 artists working in 126 studios spread over hundreds of square miles across the Morongo Basin. Who would want to rush their visit when they find an artist they really resonate with? Besides, in the beautiful high desert, getting there is part of the fun! So it will require some diligent planning to see everything you wish to see.

MAKE THE MOST OF THE STUDIO LISTINGS

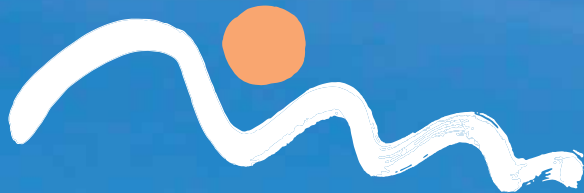

We suggest you begin with a review of the artist bios and work samples. Once you've selected artists whose work appeals to you, refer to the catalog maps to chart your course. Keep in mind that not all studios are GPS-friendly, so please refer to the Driving Directions on pages 12-14 when indicated or you might find yourself off course! You can also refer to Artist Indexes A+B on pages 8-11, where each artist is listed both numerically by studio number and alphabetically by the first letter of their artist name. Once you're on your way, you'll undoubtedly see some Art Tours directional signs that may entice you visit a studio or two that you hadn't anticipated.

DON'T FORGET TO DOWNLOAD THE MOBILE APP for access to a digital version of this year's catalog/directory! The app includes the ability to search by **artist**, **medium**, **location**, and **weekend**, as well as grants full access to online maps right at your fingertips.

(But keep in mind, not all studios are GPS-friendly so be sure to follow the alternative driving directions if indicated.)

Just scan the QR code or search for **HWY 62 Open Studio Art Tours** in the Apple App Store or the Google Play Store.

Alongside Denny Bales' visual grammar, pre-existing grains and patterns begin to yield an optical illusion. His work - comprised simply of wood, paint, and wood-burning - combines antiquated textile patterns with a contemporary visual language. Equally interwoven, his kaleidoscopic wooden tapestries offer a counterpoint to the existing melodies and refrains found in wood.

My work has its foundations in formalist abstraction. Acrylics, fabric, pattern, color, and the grid are my tools. Tearing, sewing, weaving, quilting, and painting are how I use them. My primary artistic influences are geometric abstraction, Op, The Pattern and Decoration Movement, and traditional quilts. Welcome to my world.

Inspired by the natural beauty of the desert, my paintings are an interpretation of the vast and beautiful but threatened landscape. The desert is at risk from human exploitation, fire, pollution and climate change. The responsibility to advocate for this threatened desert ecosystem rests in our hands.

Video art and digital printmaking are my mediums of expression. The series of prints represented here are digitally manipulated from an original architectural floor plan. The act of altering and glitching to produce the final images is a process of dissolving boundaries and revealing fragility and impermanence.

Full Time Arts Instructor Chloe Allred conducts a painting demonstration for her students at CMC.

Art students at Copper Mountain College in Joshua Tree are excited to be included as part of this year's Hwy 62 Open Studio Art Tours. The college's Art Department will be hosting a student art exhibition through all three weekends of the art tours, featuring works from Printmaking, Painting, Drawing, Ceramics, Digital Design, and more. All proceeds from art sales go directly to the college's talented student artists.

"Not only will our art students be able to exhibit and sell their work during the Hwy 62 Open Studio Art Tours, but they'll also gain the experience of presenting their work to the public and discussing it with art fans who stop during the tours," said Chloe Allred, Full Time Arts Instructor at CMC. "That's invaluable experience for our students."

Copper Mountain students regularly hold art shows at the college, but the Hwy 62 Open Studio Art Tours take things to a new level with art fans and collectors participating from across the region.

"We're hoping to provide a unique opportunity for our students to gain real world experience, while building better connections with the Morongo Basin Cultural Arts Council, MBCAC members, and the communities we serve," noted Ramon Abrego III, Dean of Instruction

Make Copper Mountain College a stop on your 2023 HWY 62 Open Studio Art Tours - Open all three weekends

- Meet CMC's student artists and arts faculty
- View and purchase artwork from CMC's talented student artists with all proceeds going directly to the artists
- Art demos and interactive art workshops
- Kids art activities
- Learn about CMC's art programs and the arts in CMC Community Education courses
- Take a walking campus tour of CMC's art installations from desert artists like Simi Dabah, Terry Waite, Steve Rieman, Howard Pierce, John and Kathi Hilton, Cathy Allen, and the California Sculpture Center. **Learn more about CMC's Desert Studies program and Desert Tortoise Preserve.**
- Pick up Hwy 62 Open Studio Art Tours catalogs
- Check the CMC Calendar online at www.cmccd.edu for the complete schedule of activities each weekend

at the college. "We're hoping that we can build mutually beneficial connections with the arts community so CMC can continue to work toward being a leading cultural and educational hub for our area."

Copper Mountain College offers art classes for art students, non-art majors, and lifelong artists. Students can transfer from CMC to CSU and UC universities to pursue their degree, or they can just take courses to explore the arts and build their skills. Hone your creativity and learn new techniques, from figure drawing and painting to ceramics and graphic design. You can take a class and become part of the artistic community at CMC.

With the arts solidly at the core of the cultural life and history of the hi-desert, Copper Mountain College is working to perpetuate the role of the arts in our communities for generations to come by making arts education affordable and accessible for desert artists, and through building connections with the area's arts community.

CMC art student Danielle Caesar works in oil paints, above. Student artwork by Mary Dennis for the annual Day of the Dead Student Art Show at CMC, top left.

CMC invites you to stop by our Joshua Tree campus during one of the three weekends of the 2023 Hwy 62 Open Studio Art Tours to meet our student artists, view their artwork, and learn more about the artistic opportunities the college provides for our communities. For a full schedule of activities at CMC during the Hwy 62 Open Studio Art Tours, please visit our online calendar at www.cmccd.edu.

MBCAC artists - Copper Mountain College offers opportunities to share your work, skills, talent and stories with CMC students and our community through our Art Department, Campus Experience, and our Community Education programs. **Contact stevebrown@cmccd.edu for more information.**
