PRECAUTIONS FOR ALL SKIN CARE PRODUCTS

- * For external use only.
- * Do not ingest.
- * Keep out of reach of children.
- * Avoid contact with inner eye area.
- * Flush eyes thoroughly with cool water if contact occurs.
- * Keep away from light.
- * Discontinue use if signs of irritation or rash appear.
- * Keep at an ambient temperature.
 - 15° C to 25° C
 - 59° F to 77° F
- * Once product is opened, be careful not to contaminate it.
- * It is best to use any opened product within a twelve month period.

MEDICALIA[®] SKINCARE

MEDI-RENEW[®]

Eye Make-up Remover

Ophthalmologist & Dermatologist Tested

PROPERTIES: A multi-benefit aqueous solution that gently removes eye make-up while delivering immediate hydration. An infusion of Chamomile, a coconut derivate and an organic cleansing agent delivers a thorough yet quick cleanse as it alleviates eye fatigue. Suitable for the most sensitive eyes, it easily dissolves and removes make-up without pressure or friction rendering this fragile zone delightfully refreshed. Recommended for all skin types.

INGREDIENTS Chamomile: Soothing, anti-irritant
PERFORMANCE: Benzalkonium Chloride: Antiseptic, moisturizing agent
Disodium Cocoamphodiacetate: Organic cleansing agent derived from coconut

BENEFITS & RESULTS:

- Aqueous formulation
- Cleanses without irritation
- Cleanses easily without friction
- Renders eye contour soft and relaxed
- Suitable for contact lens wearers
- Neutral pH

DIRECTIONS • Home Use:
FOR USE: Wet a cotton ball with a small quantity of this gentle, aqueous eye make-up remover. Cleanse the eyelids and eyelashes.

• Professional Use:
Apply at treatment commencement to cleanse the eye contour thoroughly.

CAUTION: avoid direct contact with the inside of the eyes while applying eye products.
If contact occurs, rinse thoroughly with cool water.

PRESENTATION: The Eye Make-Up Remover is presented in a:
8100-11 Retail Bottle of 4 fl oz - 120 ml
8100-22 Professional Bottle of 17 fl oz - 500 ml

MEDICALIA[®] SKINCARE

MEDI-RENEW[®]

Eye Gel Oxy-'C'

Ophthalmologist & Dermatologist Tested

PROPERTIES: Delivering in-demand multi-active benefits, this clinically proven eye gel combines Vitamin C and powerful moisture bonding agents like Marine Collagen. Formulated for performance with an advanced manufacturing technology: sphérulites (a time released liposome that carries Hyaluronic Acid, the active ingredient, for delivery between the multi-shields and multi-lamellae structure). These dynamic sphérulites release moisture all day long to help maintain a smooth and youthful eye contour. Recommended for all skin types especially pre and post-operative care (Blepharoplasty).

INGREDIENTS **Marine Collagen:** Anti-wrinkle, moisture bonding
PERFORMANCE: **Sphérulites of Hyaluronic Acid:** Moisture bonding, hydrating
Calcium Ascorbate (Vitamin C): Improves skin's texture and wrinkles, skin refining, anti-oxidant
Beta-Carotene: Vitamin A precursor, anti-oxidant

BENEFITS & RESULTS:

- Advanced manufacturing technology
- Reduces puffiness, de-aging
- Refreshing and de-stressing
- Smooths wrinkles
- Safe for contact lens wearers
- Excellent eye make-up base for a flawless look

DIRECTIONS • Home Use:
FOR USE: Morning and/or evening, apply a small quantity around the eye contour. Use gentle tapping movements.

CAUTION: avoid direct contact with the inside of the eyes while applying eye products.
If contact occurs, rinse thoroughly with cool water.

PRESENTATION: The Eye Gel Oxy-'C' is presented in a:
8101-11 Retail Pump Bottle of 0.5 fl oz - 15 ml

MEDICALIA[®] SKINCARE

MEDI-RENEW[®]

Eye Cream

Ophthalmologist & Dermatologist Tested

PROPERTIES: Ultra-hydrating and nourishing, this professional strength formula delivers targeted repair to the thin, sensitive, and delicate area around the eyes. Wonderfully greaseless and firming, a unique blend of Hyaluronic and Glycolic Acid, Marine Elastin and select repair agents effectively minimizes lines and deeply moisturizes for a healthier eye contour. Recommended for all skin types especially pre and post-operative care (Blepharoplasty).

INGREDIENTS **Squalane:** Nourishing, protecting, healing
PERFORMANCE: **Marine Elastin:** Improves elasticity, tightening
Tocopheryl Acetate (Vitamin E): Nourishing, healing, anti-oxidant
Hyaluronic Acid: Moisture bonding, hydrating
Glycolic Acid: Diminishes the corneocytes cohesion, prevents epidermal thickening

BENEFITS & RESULTS:

- Softens wrinkles
- Smooths crepiness
- Greaseless, rich texture
- Nourishing and firming
- Maintains a healthy and hydrated eye contour

DIRECTIONS • **Home Use:**
FOR USE: Morning or evening, apply a small quantity around eye contour. Use gentle tapping movements. Excellent make-up base for eye contour dryness.

CAUTION: avoid direct contact with the inside of the eyes while applying eye products.
If contact occurs, rinse thoroughly with cool water.

PRESENTATION: The Eye Cream is presented in a:
8102-11 Retail Pump Bottle of 0.5 oz - 15g

MEDICALIA[®] SKINCARE

MEDI-SOOTHE[®]

Gentle Cleanser

Dermatologist Tested

PROPERTIES: Harsh cleansing when the skin is vulnerable or compromised can create less than favorable results. Creamy and gentle, this delightful cleanser is specifically formulated to softly cleanse without drying or stripping skin of essential nutrients. Loaded with Green Tea, Oats and natural emulsified oils, this non-irritating hydrosoluble blend renders the complexion thoroughly cleansed and residue-free. Recommended for all skin types, especially dry/sensitive skin with microcirculation problems: Couperose, Erythroze, and Rosacea. Ideal before and after medical cosmetic procedures.

INGREDIENTS Sodium Lauroyl Oat (Amino Acids): Natural foaming agent from oats
PERFORMANCE: **Green Tea:** Healing, reduces symptoms of inflammation, anti-free radicals, anti-bacterial
Chamomile: Soothing, anti-irritant

BENEFITS & RESULTS:

- Smooth creamy texture
- Hydrosoluble
- Cleanses thoroughly
- Residue-free
- Suitable for all skin types including sensitive
- Excellent for hypersensitivity and Rosacea
- Acid-mantle friendly
- Safe for pre and post-operative use

DIRECTIONS

FOR USE:

- **Home Use:**
Morning and evening, apply a small quantity all over face and neck. Work with wet fingertips. Rinse or remove with washcloth moist with warm water. Follow with Gentle Toner.
- **Professional Use:**
Apply at treatment commencement to gently yet thoroughly cleanse skin.

PRESENTATION: The Gentle Cleanser is presented in a:
8200-11 Retail Bottle of 4 fl oz - 120 ml
8200-22 Professional Bottle of 17 fl oz - 500 ml

MEDICALIA[®] SKINCARE

MEDI-SOOTHE[®]

Gentle Toner

Dermatologist Tested

PROPERTIES: This unique toner, very rich in actives, is an integral part of the cleansing procedure and a vital step in preparing the skin for further treatment. Desensitizing, healing, and hydrating, this toner reduces blotchiness and irritability. Recommended for all skin types, especially dry/sensitive skin with micro-circulation problems: Couperose, Erythrose, and Rosacea. Also recommended before and after medical cosmetic procedures. Alcohol-free.

INGREDIENTS **Green Tea:** Healing, reduces symptoms of inflammation, anti-free radicals, anti-bacterial
PERFORMANCE: **Guarana:** Improves circulation
Chamomile: Soothing, anti-irritant
Panthenol (Vitamin B Complex): Desensitizing, moisturizing
Dipotassium Glycyrrhizate (Licorice): Vaso-constricting action, reduces redness/erythema

BENEFITS & RESULTS:

- High concentration of actives
- Alcohol-free
- Redness diffuser
- Crucial step in thorough cleansing
- Removes hard water toxins, prepares skin for optimum absorbency
- Encourages healing
- Safe for pre and post-operative use

DIRECTIONS • **Home Use:**
FOR USE: Morning and evening, after thoroughly cleansing with Gentle Cleanser, wipe face and neck with a cotton pad moist with Gentle Toner.

• **Professional Use:**
Apply at treatment commencement after Gentle Cleanser.

PRESENTATION: The Gentle Toner is presented in a:
8201-11 Retail Bottle of 4 fl oz - 120 ml
8201-22 Professional Bottle of 17 fl oz - 500 ml

MEDICALIA[®] SKINCARE

MEDI-SOOTHE[®]

Gentle Cream

Dermatologist Tested

PROPERTIES: Formulated for superior results, this cream is powered by Biomimetic technology, an innovative process that renders the formula compatible with the natural composition of the skin. Works to assimilate the application of multilamellar lipid structures (similar to skin lipids) in order to effectively reconstruct, restore and help skin cell layers recover from damage.

Why Biomimetic Technology?

- Innovation in manufacturing skincare creams. Creates man made restructuring substances processed in identical repairing systems that imitate and replace the skin's natural elements for the purpose of addressing complex skin problems
- Biomimetic advanced multi-phase O/W/O emulsions powerfully impart stability, refined texture, and extreme efficacy for quick repair and expedited healing
- Facilitates lipid to lipid interaction allowing for effortless adoption and absorption of skin-compatible elements to help rebuild skin structure and cellular membrane
- Assures membrane fluidity and mechanism strength for normalized cellular function.
- Ideal for traumatized and postsurgical skin, psoriasis, atopic dermatitis proneness to sensitivity, and excess dryness

A precise blend of Green tea, Chamomile and other key extracts delivers decongesting, soothing and anti-oxidant benefits. Recommended for all skin types, especially dry/sensitive skin with rosacea, and other microcirculation problems.

INGREDIENTS Medicalia[®]-Proprietary Biomimetic Technology Blend: Squalane (Olives), Caprylic/Capric
PERFORMANCE: Triglyceride (Coconut), Ceramide 2 (Safflower), Phospholipids (Soja Bean), Phytosterols (Avocado)

Chamomile: Soothing, anti-irritant

Squalane: Nourishing, protecting, healing

Green Tea: Healing, reduces symptoms of inflammation, anti-free radicals

Dipotassium Glycyrrhizate (Licorice): Vasoconstricting action, reduces redness/erythema

Tocopheryl Acetate (Vitamin E): Nourishing, healing, anti-oxidant

Titanium Dioxide: Sun protection

BENEFITS & RESULTS:

- Tri-phase O/W/O biomimetic technology for enhanced skin recovery
- Hydrating and protecting
- Soothing, redness diffuser
- Desensitizing, healing
- Shields, reduces trans-epidermal water loss

DIRECTIONS FOR USE:

- **Home Use:**
Morning and/or evening, apply all over face and neck after cleansing with Gentle Cleanser followed by Gentle Toner.

- **Professional Use:**
To be used at treatment conclusion: Gently apply a small quantity all over face and neck until absorbed.

PRESENTATION: The Gentle Cream is presented in a:
8202-11 Retail Jar of 1.7 oz - 50g
8202-22 Professional Tube of 6.8 oz - 200g

MEDICALIA[®] SKINCARE

MEDI-HEAL[®] FACE

Post-Operative Care Cream

Dermatologist Tested

PROPERTIES: Non-irritating and formulated for expedited healing, this cream is powered by Biomimetic technology, an innovative process that renders the formula compatible with the natural composition of the skin. Works to assimilate the application of multilamellar lipid structures (similar to skin lipids) in order to effectively reconstruct, restore and help skin cell layers recover from damage.

Why Biomimetic Technology?

- Innovation in manufacturing skincare creams. Creates man made restructuring substances processed in identical repairing systems that imitate and replace the skin's natural elements for the purpose of addressing complex skin problems
- Biomimetic advanced multi-phase O/W/O emulsions powerfully impart stability, refined texture, and extreme efficacy for quick repair and expedited healing
- Facilitates lipid to lipid interaction allowing for effortless adoption and absorption of skin-compatible elements to help rebuild skin structure and cellular membrane
- Assures membrane fluidity and mechanism strength for normalized cellular function.
- Ideal for traumatized and postsurgical skin, psoriasis, atopic dermatitis proneness to sensitivity, and excess dryness

Instantly cooling and hydrating, this advanced post-operative cream is clinically proven to shorten recovery time and maximize results. Reducing post-operative related discomfort, skin tightening, and trauma, it instantly alleviates as it infuses vital hydration, shields and protects. A powerhouse blend of Squalane, Marine Collagen/Elastin join vitamin-enriched and botanical agents to soothe and restore the skin's overall suppleness and tonicity. Recommended for sensitive skin and medical procedures including: Post-Acid Peels, Post-Laser Resurfacing, Post-Dermabrasion, Post-Rhytidectomy, Post-Blepharoplasty, Post-Rhinoplasty, and Post-Abdominoplasty.

INGREDIENTS Medicalia[®]-Proprietary Biomimetic Technology Blend: Squalane (Olives), Caprylic/Capric
PERFORMANCE: Triglyceride (Coconut), Ceramide 2 (Safflower), Phospholipids (Soja Bean), Phytosterols (Avocado)

Marine Collagen: Prevents and smooths wrinkles
Marine Elastin: Improves elasticity, tightening
Squalane: Nourishing, healing, protecting
Tocopheryl Acetate (Vitamin E): Healing, anti-oxidant
Panthenol (Vitamin B Complex): Moisturing, nourishing, desensitizing
Titanium Dioxide: Sun protection

BENEFITS & RESULTS:

- Shortens recovery time
- Improves healing
- Desensitizing, hydrating
- Provides a feeling of comfort and a supple appearance
- Protects from aggressive environment

DIRECTIONS FOR USE:

- **Home Use:**
Morning and evening, apply all over face and neck after cleansing with the Gentle Cleanser followed by the Gentle Toner.

- **Professional Use:**
To be used at treatment conclusion: Gently apply a small quantity all over face and neck and/or body until absorbed.

CAUTION: do not apply on open wounds.

PRESENTATION: The Post-Operative Care Cream is presented in a:
8300-11 Retail Jar of 1.7 oz - 50g
8300-22 Professional Tube of 6.8 oz - 200g

MEDICALIA[®] SKINCARE

MEDI-HEAL[®] FACE

Silico-Lipid[®] Serum

Dermatologist Tested

PROPERTIES: Diminish scars and marks with an intensive serum that provides post-operative skin serious repair and relief while protecting, soothing, and cooling. Uniquely crafted, this vitamin-rich formula pairs the best selection of Phospholipids (Vitamin A, E, and F), and Bois Oil, entrapped in a sphérulites time release delivery system and Silicones. Also contains Phytoglycolipid Extract from Millet with in-vivo testing proven to boost cell renewal activity. Silky and non-greasy, it imparts a protecting non-occlusive, non-comedogenic film that expedites the healing process. Its exceptional rehabilitative benefits remarkably decrease the formation of scarring, wound stiffness, keloids, and milia for a speedier recovery; with phenomenal post-operative results. Recommended for post-medical procedures including: Post-Acid Peels, Post-Laser Resurfacing, Post-Dermabrasion, Post-Rhytidectomy, Post-Blepharoplasty, Post-Rhinoplasty, and Post-Abdominoplasty. Also recommended for sensitive skin.

INGREDIENTS Millet Extract: Soothing, healing, cell renewal activity
PERFORMANCE: Bois Oil (Sphérulites): Nourishing, repairing
Bisabolol: Soothing, softening, anti-irritant
Cyclopentasiloxane: Humectant, smoothing, natural barrier for faster healing
Cyclomethicone: Humectant, lubricant, aids in the delivery of actives

BENEFITS & RESULTS:

- Healing and protecting
- Moisturizing, comforting
- Soothing
- Non-comedogenic
- Speeds up healing process
- Non-greasy, imparts a silky-smooth texture

DIRECTIONS • Home Use:
FOR USE: Morning and evening, apply one pump on clean skin all over face and neck. Massage gently. For scars: once wounds are completely healed, apply one pump on the scar. Massage gently to smooth and fade the scar. Best if used in conjunction with the Post-operative Care Cream.

CAUTION: do not apply on open wounds.

PRESENTATION: The Silico-Lipid Serum is presented in a:
8301-11 Retail Pump Bottle of 0.5 fl oz - 15 ml

MEDI-REPAIR®

Retinol & 'C' Care Cream

Dermatologist Tested

PROPERTIES: Supercharged with an intense concentration of a breakthrough in retinol manufacturing: Micro-Retinol®, this cream is powered by Biomimetic technology, an innovative process that renders the formula compatible with the natural composition of the skin. Works to assimilate the application of multilamellar lipid structures (similar to skin lipids) in order to effectively reconstruct, restore and help skin cell layers recover from damage.

Why Biomimetic Technology?

- Innovation in manufacturing skincare creams. Creates man made restructuring substances processed in identical repairing systems that imitate and replace the skin's natural elements for the purpose of addressing complex skin problems
- Biomimetic advanced multi-phase O/W/O emulsions powerfully impart stability, refined texture, and extreme efficacy for quick repair and expedited healing
- Facilitates lipid to lipid interaction allowing for effortless adoption and absorption of skin-compatible elements to help rebuild skin structure and cellular membrane
- Assures membrane fluidity and mechanism strength for normalized cellular function.
- Ideal for traumatized and postsurgical skin, psoriasis, atopic dermatitis proneness to sensitivity, and excess dryness

Its potent technology features an exceptional and swift Retinol delivery system for amplified absorption deep within the epidermis prompting normalized and boosted cellular performance. Combined with stabilized Vitamin C and Elastin, it promotes rejuvenating, tightening, and revitalizing effects as it deeply hydrates the skin and lightens the complexion. Recommended for all mature skin types or as preventive care.

INGREDIENTS Medicalia®-Proprietary Biomimetic Technology Blend: Squalane (Olives), Caprylic/Capric
PERFORMANCE: Triglyceride (Coconut), Ceramide 2 (Safflower), Phospholipids (Soja Bean), Phytosterols (Avocado)

Squalane: Nourishing, protecting, healing

Micro-Retinol®: Anti-aging, skin resurfacing, anti-oxidant

Marine Elastin: Improves elasticity, tightening

Calcium Asorbate (Vitamin C): Anti-aging, smoothing, rejuvenating, anti-free radicals

Hyaluronic Acid: Moisture bonding, hydrating

Beta-Carotene: Vitamin A precursor, anti-oxidant

BENEFITS & RESULTS:

- Increases epidermal moisture
- Smooths wrinkles
- Improves epidermal elasticity and suppleness
- Brightens the complexion
- Repairs and rejuvenates
- Boosts cellular performance for healthier epidermal layers

DIRECTIONS FOR USE:

- Home Use:
Morning and/or evening, apply all over face and neck, after cleansing with Gentle Cleanser, followed by Gentle Toner. Optimum results when used after 'C' Serum with Oxyzomes in the morning and after Retinol Concentrate in the evening.

PRESENTATION: The Retinol & 'C' Care Cream is presented in a:
8400-11 Retail Jar of 1.7 oz - 50g

MEDICALIA[®] SKINCARE

MEDI-REPAIR[®]

'C' Serum with Oxyzomes

Dermatologist Tested

PROPERTIES: This intensive serum features the latest technology in manufacturing a new generation of liposomes: oxyzomes. Oxyzomes contain stabilized Vitamin C and Vitamin E (Alpha Tocopherol) in a multilamellae, multi-shield structure. The liposomes' membranes are specially engineered from soy lecithin for extra stability within an acidic pH environment. Conclusive testing proves that this outstanding, targeted delivery system promptly infuses Vitamin C into the skin increasing bioavailability by 85%. 'C' Serum with Oxyzomes reduces the appearance of wrinkles promoting rejuvenated, healthy looking skin. Recommended for all skin types.

INGREDIENTS **Magnesium Ascorbyl Phosphate (Vitamin C):** Anti-aging, smoothing, rejuvenating
PERFORMANCE: **Tocopherol (Vitamin E):** Anti-free radicals
 Hyaluronic Acid: Moisture bonding, hydrating
 Beta-Carotene: Vitamin A precursor, anti-oxidant

**BENEFITS &
RESULTS:**

- Counteracts photo-damage
- Reduces fine lines
- Restores youthful appearance
- Intensive skin firming serum

DIRECTIONS • Home Use:
FOR USE: Morning and/or evening, apply 1 pump on clean skin all over face and neck. Massage gently. Best results when used before the Retinol & 'C' Care Cream.

PRESENTATION: The 'C' Serum with Oxyzomes is presented in a:
8402-11 Retail Pump Bottle of 0.5 fl oz - 15 ml

MEDICALIA[®] SKINCARE

MEDI-REPAIR[®]

Retinol Concentrate

Dermatologist Tested

PROPERTIES: Highly concentrated, this result-driven Retinol serum is formulated with the latest age-reversing Micro-Retinol[®] technology. Facilitating an exceptional and swift delivery of this repairing agent deep within the epidermis, it normalizes and boosts cellular performance. As a derivative of Retinyl Palmitate (Vitamin A), Retinol helps boost the epidermal cellular activity while encouraging hydro-retention within the skin. Elasticity is improved, skin appears plump and supple and wrinkles are diminished. This results in brighter, more youthful-looking skin with a smoother and more evenly toned complexion. Recommended for all mature skin or as preventive care.

INGREDIENTS Micro-Retinol[®]: Anti-aging, skin resurfacing, anti-oxidant
PERFORMANCE: Tocopherol (Vitamin E): Anti-free radicals

BENEFITS & RESULTS:

- Normalizes biological activity
- Smooths visible lines
- Preventive aging treatment
- Delivers de-aging benefits
- A minimum quantity offers prolonged results

DIRECTIONS FOR USE:

- Home Use:
Evening only, apply 1 pump all over face and neck. Massage gently. Best results when used before Retinol & 'C' Care Cream.

PRESENTATION: The Retinol Concentrate is presented in a:
8403-11 Retail Pump Bottle of 0.5 oz - 15g

MEDICALIA[®] SKINCARE

MEDI-CLEAR[®]

Exfoliating Cleanser

Dermatologist Tested

PROPERTIES: Polish your way beyond clean. Exceptionally high performing, this multi-benefit cleanser thoroughly removes make-up and excess oil while eliminating dead cells, impurities and pollutants. A unique blend of Jojoba Beads and Lactic Acid combine with other key ingredients to gently exfoliate. Anti-bacterial and naturally foaming, it renders the skin clean, bacteria-free, and vibrant for a smoother, visibly brighter complexion. Recommended for all skin types except sensitive skin.

INGREDIENTS **Sodium Lauroyl Oat (Amino Acids):** Natural foaming agent from oats
PERFORMANCE: **Jojoba Beads:** Exfoliating polished beads from Jojoba
Saponaria: Natural foaming, cleansing agent
Lactic Acid: Brightening agent, hydrating, exfoliating

BENEFITS & RESULTS:

- Natural foaming and exfoliating agents
- Thoroughly eliminates surface impurities
- Reduces surface oiliness
- Brightens the complexion

DIRECTIONS FOR USE:

- **Home Use:** Morning and evening, apply a small quantity of this cleanser over face and neck. Work with wet fingertips. Rinse with warm water. Towel dry.

CAUTION: avoid direct contact with the inside of the eyes while cleansing.
If contact occurs, rinse eyes thoroughly with cool water.

PRESENTATION: The Exfoliating Cleanser is presented in a:
8500-11 Retail Tottle of 5 fl oz - 150 ml

MEDICALIA[®] SKINCARE

MEDI-CLEAR[®]

Clarifying Cleanser

Dermatologist Tested

PROPERTIES: The first defense for a clear and enviable complexion. Highly effective yet non-irritating, this cleanser's soft suds work quickly to eliminate toxins, impurities, surface bacteria, and make-up. An efficacy blend of Sodium Lauroyl Oat plus Lactic and Salicylic Acids removes buildup and combats inflammation for a thoroughly refreshed and visibly clearer complexion. Recommended for impure skin (acneic and breakout-prone).

INGREDIENTS **Sodium Lauroyl Oat (Amino Acids):** Natural foaming agent from oats
PERFORMANCE: **Saponaria:** Natural foaming, cleansing agent
Lactic Acid: Brightening agent, hydrating, exfoliating
Salicylic Acid: Controls bacteria, natural exfoliant, keratolytic

BENEFITS & RESULTS:

- Anti-bacterial
- Controls breakouts
- Leaves the skin with a brighter complexion
- Non-dehydrating, high performant cleanser
- Refreshing and pleasant to use
- Provides non-abrasive gentle exfoliation

DIRECTIONS • Home Use:
FOR USE: Morning and evening, apply a small quantity of this cleanser over face and neck. Work with wet fingertips. Rinse with warm water. Towel dry.

PRESENTATION: The Clarifying Cleanser is presented in a:
8501-11 Retail Bottle of 4 fl oz - 120 ml

MEDICALIA[®] SKINCARE

MEDI-CLEAR[®]

Clarifying Cream

Dermatologist Tested

PROPERTIES: Fight breakouts and help prevent future ones with this oil-free, light-textured cream. Formulated to combat follicular accumulation and clogging, it works to eliminate build-up of dead cells, impurities and toxicity that may result in blemishes and acne. A powerhouse blend of actives: Glycolic and Salicylic Acid, Sorbitol and others, prevents hyperkeratinization while promoting a healthier, hydrated, and bacteria-free complexion. Recommended for impure skin (acneic and breakout-prone).

INGREDIENTS **Glycolic Acid:** Diminishes corneocytes cohesion, prevents epidermal thickening
PERFORMANCE: **Sorbitol:** Humectant extracted from fruits
Cyclopentasiloxane: Healing, emollient, natural barrier
Salicylic Acid: Controls bacteria, natural exfoliant, keratolytic
Chamomile: Soothing, anti-irritant

BENEFITS & RESULTS:

- Oil-free complexion
- Healing
- Prevents hyperkeratinization
- Prevents follicular build-up and clogging
- Controls and prevents breakouts
- Deters bacterial growth
- Helps diminish skin irritation

DIRECTIONS • Home Use:
FOR USE: Morning and/or evening, apply all over face and neck, after cleansing with Clarifying Cleanser.

PRESENTATION: The Clarifying Cream is presented in a:
8502-11 Retail Jar of 1.7 oz - 50g

MEDI-CLEAR[®]

Spot Treatment Fluid

Dermatologist Tested

PROPERTIES: Target breakouts and ward off blemish causing bacteria. Zeroing in on areas of concern, this potent spot treatment fluid delivers incredibly fast and highly visible results. Powerfully formulated with natural enzymes, Phytic Acid, and Sea Whip Extract, its innovative blend counteracts the main factors of acne. This professional-grade treatment diminishes follicular clogging, kills bacteria, and reduces inflammation for a visibly clearer complexion. Recommended for impure skin (acneic and breakout-prone).

INGREDIENTS **Mucor Miehei Extract:** Enzymatic action to facilitate exfoliation, keratolytic
PERFORMANCE: **Phytic Acid:** Inhibits pigmentation, lightening action, anti-bacterial
Glycolic Acid: Diminishes corneocytes cohesion, prevents epidermal thickening
Sea Whip Extract: Soothing, reduces inflammation
Dipotassium Glycyrrhizate (Licorice): Vaso-constricting action, reduces redness/erythema
Salicylic Acid: Controls bacteria, natural exfoliant, keratolytic
Chamomile: Soothing, anti-irritant

BENEFITS & RESULTS:

- Clears breakouts
- Targeted bacterial control
- Promotes fast healing while soothing
- Keratolytic: reduces surface thickening
- Comedolytic: reduces clogging
- Decreases the risk of scarring
- Prevents post-inflammatory hyperpigmentation

DIRECTIONS • Home Use:
FOR USE: Morning and/or evening, after cleansing with Clarifying Cleanser, apply sparingly directly on blemishes/breakouts. Wait two minutes, follow with Clarifying Cream.

PRESENTATION: The Spot Treatment Fluid is presented in a:
8503-11 Retail Pump Bottle of 0.5 fl oz - 15 ml

MEDICALIA[®] SKINCARE

MEDI-REFINE[®]

L-Retinol Smoothing Cream

Dermatologist Tested

PROPERTIES: Coexisting with Micro-Retinol[®] for better biological activity, this fast-acting cream delivers astonishing visible results. Powered by Biomimetic technology, an innovative process that renders the cream's formula compatible with the natural composition of the skin. Works to assimilate the application of multilamellar lipid structures (similar to skin lipids) in order to effectively reconstruct, restore and help skin cell layers recover from damage.

Why Biomimetic Technology?

- Innovation in manufacturing skincare creams. Creates man made restructuring substances processed in identical repairing systems that imitate and replace the skin's natural elements for the purpose of addressing complex skin problems
- Biomimetic advanced multi-phase O/W/O emulsions powerfully impart stability, refined texture, and extreme efficacy for quick repair and expedited healing
- Facilitates lipid to lipid interaction allowing for effortless adoption and absorption of skin-compatible elements to help rebuild skin structure and cellular membrane
- Assures membrane fluidity and mechanism strength for normalized cellular function.

Formulated for performance excellence with Squalane, Glycolic Acid and a high concentration of Lactic Acid, one of the most performant low-molecular-weight organic acids. It has the ability to dissolve unwanted accumulated dead cells and enhance uneven skin surface, rendering the skin youthfully smooth and hydrated. Lactic Acid suppresses the formation of Tyrosinase, regulates the pigmentary system, and prevents post-operative hyperpigmentation while lightening existing one. This cream is recommended preoperatively and is a must prior to laser resurfacing and dermabrasion procedures. Recommended for all skin types, except sensitive skin.

INGREDIENTS Medicalia[®]-Proprietary Biomimetic Technology Blend: Squalane (Olives), Caprylic/Capric
PERFORMANCE: Triglyceride (Coconut), Ceramide 2 (Safflower), Phospholipids (Soja Bean), Phytosterols (Avocado)

Lactic Acid: Exfoliating, smoothing, hydrating, brightening

Glycolic Acid: Diminishes corneocytes cohesion, prevents epidermal thickening

Squalane: Nourishing, protecting, healing

Micro-Retinol[®]: Anti-aging, skin resurfacing, anti-oxidant

- BENEFITS & RESULTS:**
- True resurfacing cream
 - Smooths and prevents wrinkles
 - Keeps skin texture tight and moisturized
 - Renders skin youthfully radiant
 - Minimum quantity offers prolonged visible anti-aging results

DIRECTIONS FOR USE:

- Home Use:
Evening only, apply all over face and neck, after cleansing with Gentle Cleanser followed by Gentle Toner.

PRESENTATION: The L-Retinol Smoothing Cream is presented in a:
8401-11 Retail Jar of 1.7 oz - 50g

MEDICALIA[®] SKINCARE

MEDI-REFINE[®]

Lightening Cream

Dermatologist Tested

PROPERTIES: Offer an accelerated and serious solution for age spots and dark spots. This cream directly targets and effectively diminishes hyperpigmentation.

Featuring a results-driven innovative lightening complex with encapsulated time release microspheres loaded with:

- Undaria Pinnatifida (a peptide from brown micro-algae, proven effective for its anti-inflammatory and Tyrosinase-inhibiting actions);
- Glycyrrhiza Glabra (from Licorice, a potent duo inhibitor of Tyrosinase and Cyclooxygenase-2 enzyme activity);
- Magnesium Ascorbyl Phosphate (an effective form of vitamin C that acts as a free radicals scavenger while lightening and rejuvenating the skin).

This powerful formula also contains:

- Tranexamic Acid, an analog of the amino acid lysine that provides rapid and sustained lightening action by decreasing melanogenesis;
- Hexylresorcinol, from rye cereal, clinically proven to inhibit Tyrosinase and to be four times more effective than Hydroquinone in lightening and controlling skin pigmentation;
- Ethyl Ascorbic Acid, the latest oxidation resistant stable form of readily bioavailable Vitamin C. Performs as an excellent lightening and anti-aging ingredient.

Combat hyperpigmentation at all levels with this extraordinary Lightening Cream and deliver undeniable visible results. Apply only on healthy skin. Recommended for all skin types.

- Promotes cellular turnover in order to replace corneocytes drenched with melanin granules
- Effectively inhibits the activity of tyrosinase: main enzyme involved in the formation of melanin and minimizes the synthesis of new melanin
- Visibly lightens without photosensitizing the skin

INGREDIENTS PERFORMANCE:

Medicalia Microsphere Lightening Complex:

- Undaria Pinnatifida Extract: Lightening, anti-inflammatory
- Glycyrrhiza Glabra (Licorice) Root Extract: Lightening, soothing
- Magnesium Ascorbyl Phosphate (Vit. C): Lightening, antioxidant, anti-aging

Hexylresorcinol: Lightening, smoothing

Tranexamic Acid: Lightening, smoothing

Ethyl Ascorbic Acid (Vit. C): Lightening, anti-aging, antioxidant

Lactic Acid: Lightening, smoothing, hydrating

BENEFITS & RESULTS:

- Effective bleaching agent
- Visibly lightens while protecting the skin
- Evens skin pigmentation without irritation
- Moisture bonding
- Anti-aging
- Enhances any professional lightening treatment

DIRECTIONS FOR USE:

- Home Use:

Use in the PM only. In the evening before bedtime, after cleansing and toning with the ideal Medicalia Cleanser and Toner, apply a small quantity of this cream on dark spots/hyperpigmented areas only. Daily sunscreen protection is recommended while using this product.

PRESENTATION: The Lightening Cream is presented in a:
8504-11 Retail Jar of 1.7oz - 50g

MEDICALIA[®] SKINCARE

MEDI-HEAL[®] BODY

Hydro-Firm Body Moisturizer

Dermatologist Tested

PROPERTIES: Enriched in tightening Marine Elastin, anti-aging Palmitoyl Tetrapeptide-7, Vitamins E and B, this body moisturizer delivers noticeable anti-aging results. Firming and deeply hydrating, it boosts the skin's activity level rendering it silky-soft, toned, and youthful-looking. Non-greasy, its pleasurable light-textured formula softens dry, scaly skin and promotes easy application and quick absorption. Highly restorative, its synergetic blend of Sodium Lactate, Sodium PCA, Sorbitol, and Proline replenishes the natural moisturizing factor. Its ultra-hydrating formula replenishes essential humectants and amino acids found naturally within the skin. Recommended for all skin types.

INGREDIENTS **Palmitoyl Tetrapeptide-7:** Anti-aging peptides, firming
PERFORMANCE: **Marine Elastin:** Tightening, improves skin elasticity
Tocopheryl Acetate (Vitamin E): Nourishing, repairing, anti-oxidant
Panthenol: Moisturizing, nourishing, desensitizing
Sodium Lactate: Moisture bonding
Sodium PCA: Moisture bonding
Sorbitol: Moisture bonding
Proline: Amino Acid, anti-aging

BENEFITS & RESULTS:

- Normalizes skin's activity
- Deeply hydrating
- Instantly improves skin texture
- Softens dry and rough skin
- Restores elasticity

DIRECTIONS FOR USE:

- Home Use:
Apply all over the body after a shower, bath, or as desired. Massage until absorbed.

PRESENTATION: The Hydro-Firm Body Moisturizer is presented in a:
8600-11 Retail Tottle of 5 fl oz - 150 ml

MEDICALIA[®] SKINCARE

MEDI-HEAL[®] BODY

Arnica Montana Bruise-Guard Cream

Dermatologist Tested

PROPERTIES: Innovative and high-performant, this micro-emulsified cream is enriched with healing Arnica Montana Extract, Shea Butter, and nourishing Vitamins. Featuring Evodia Rutaecarpa Fruit Extract, a powerful natural element renowned since ancient Chinese civilization for its phenomenal anti-inflammatory and calming benefits. Used medicinally by the Chinese within an ancient elixir, WU-ZHU-YU, this potent extract is recognized for its unique ability to reduce pain, expedite healing, and calm erythema. This unctuous formula is easily absorbed without leaving traces of oily residue. When used as recommended, it effectively and dramatically minimizes bruising and speeds up the healing process. It also plays a critical role in pre & post surgical bruise management. Recommended for pre & post cosmetic surgery procedures, post-trauma, or any surgical procedure.

INGREDIENTS Arnica Montana Flowerhead Extract: Prevents bruising, speeds up healing
PERFORMANCE: Squalane: Nourishing, protecting, healing
Butyrospermum Parkii (Shea Butter): Healing, nourishing, protecting
Evodia Rutaecarpa Fruit Extract: Soothes inflammation, reduces pain, healing
Hyaluronic Acid: Moisture bonding, hydrating
Panthenol (Vitamin B Complex): Moisturizing, nourishing

BENEFITS & RESULTS:

- Effective bruise management
- Dramatic reduction of bruises
- Nourishing, hydrating, and soothing
- Expedited healing

DIRECTIONS FOR USE:

- Home Use:
Face and body cream. For all skin types.
Pre-op: Commence use 3 to 4 weeks prior to procedure. Morning and evening, apply a small quantity on designated pre-operative area(s). Massage gently until absorbed.
Post-op: Apply on all bruised areas. Gently massage until absorbed.
CAUTION: do not apply on open wounds.

PRESENTATION: The Arnica Montana Bruise-Guard Cream is presented in a:
8601-11 Retail Tottle of 5 oz - 150g

MEDI-HEAL[®] BODY

Stretchmark Guard Cream

Dermatologist Tested

PROPERTIES: A scientific breakthrough in treating stretch marks, this revolutionary cream is clinically proven for efficacy and performance. It protects, nourishes, strengthens elasticity and boosts malleability. Specifically formulated to promote skin expandability, it wards off skin damage to prevent stretch mark formation. Uniquely micro-emulsified, its silky texture ensures easy application and quick absorption for phenomenal benefits. Deeply replenishing, it normalizes the skin's natural moisturizing factor by combining the synergetic effects of Sodium Lactate, Sodium PCA, Sorbitol, and Proline. This ingredient blend promotes optimum delivery of essential humectants and amino acids found naturally within the skin. Features a proven-effective phyto-extracts complex: Tetrapeptide-7 from Green Beans, Rutin, and Shea Butter. It also contains Marine Elastin and Hyaluronic Acid. Recommended for all skin types. A pre-natal treatment necessity for healthy, stretch mark free post-partum skin.

INGREDIENTS **Squalane:** Nourishing, hydrating, protecting
PERFORMANCE: **Marine Elastin:** Improves skin elasticity, tightening
Rutin: Repairing, Healing
Palmitoyl Tetrapeptide-7: Anti-aging peptides, firming
Butyrospermum Parkii (Shea Butter): Healing, nourishing, protecting
Phaseolus Lunatus (Green Bean): Prevents and reduces stretch marks
Hyaluronic Acid: Moisture bonding, hydrating
Sodium Lactate: Moisture bonding
Sodium PCA: Moisture bonding
Sorbitol: Moisture bonding, hydrating
Proline: Anti-aging, pro-collagen
Tocopheryl Acetate (Vitamin E): Nourishing, repairing, anti-oxidant
Panthenol (Vitamin B Complex): Moisturizing, nourishing, desensitizing
Chamomile: Soothing, de-stressing

BENEFITS & RESULTS:

- Highly reduces the formation of stretch marks
- Smooths existing stretch marks
- Improves and strengthens elasticity
- Nourishes, improves skin expandability
- Promotes pre & post-partum skin health and comfort
- Richly hydrating, no oily residue

DIRECTIONS FOR USE:

- **Home Use:** Apply during the entire pregnancy to prevent stretch marks. Apply morning and evening all over abdomen, lower back, and bust area. Massage well. Also ideal for smoothing existing stretch marks.

PRESENTATION: The Stretchmark Guard Cream is presented in a:
8602-11 Retail Tottle of 5 oz - 150g

MEDICALIA[®] SKINCARE

MEDI-PROTECT[®]

Sunscreen SPF 30 UVA/UVB Protection – Broad Spectrum

Dermatologist Tested

PROPERTIES: Featuring a unique texture and feel, this sunscreen is richly hydrating, deeply moisturizing, and leaves no oily residue. Once applied, the skin receives immediate comfort and coolness. Very rich in humectant-nourishing ingredients, it effectively combines Zinc Oxide, Titanium Dioxide and other key elements to protect the skin from harmful burning and aging rays. Used post-operatively, it expedites a speedier recovery. Suitable for all skin types. Recommended for everyday skin protection for face and body. Specifically recommended for post-operative use. UVA/UVB protection. Not recommended under clothing.

INGREDIENTS **ACTIVE**
PERFORMANCE: **Octinoxate 7.5%:** Sunscreen
Octisalate 5%: Sunscreen
Zinc Oxide 5%: Sunscreen
Titanium Dioxide 2.8%: Sunscreen

INACTIVE
Sorbitol: Moisture bonding, hydrating
Cyclopentasiloxane: Humectant, smoothing, protects for speedier healing
Tocopheryl Acetate (Vitamin E): Nourishing, healing, anti-oxidant
Chamomile: Soothing, anti-irritant

BENEFITS & RESULTS:

- High protection UVA/UVB
- Broad spectrum
- Keeps the skin moist and hydrated
- Encourages a speedier recovery
- Provides a feeling of comfort
- Weightless with a light texture
- Can be used under make-up
- Non-comedogenic
- Naturally tinted

DIRECTIONS • Home Use:
FOR USE: Apply liberally 15 minutes before sun exposure. Reapply after 40 minutes of swimming/ sweating, immediately after towel drying, or at least every 2 hours.

CAUTION: avoid direct contact with the inside of the eyes while applying this product. If contact occurs, rinse eyes thoroughly with cool water.

PRESENTATION: The Sunscreen SPF 30 UVA/UVB Protection is presented in a:
8700-11 Retail Bottle of 5 fl oz - 150 ml

MEDICALIA[®]
SKINCARE
PROFESSIONAL MEDI-PEELS

Peel Prep Solution

PROPERTIES: The Peel Prep Solution is a unique formulation that prepares and maximizes the action and benefits of an exfoliating treatment, such as a professional skin peel. Containing a combination of Witch Hazel, a natural astringent vehicle that gently degreases the skin, while effectively improving the peel's performance during the treatment, and Acto-Zyme™, a keratolytic enzyme that works optimally in the acidic pH environment of the skin surface to thin out the stratum corneum. This solution not only primes the skin for enhanced peel results, but also facilitates an even and maximum outcome by reducing the natural skin surface barrier factors that delay or decrease peel activity and penetration. The addition of Marine Collagen promotes quick skin plumping, while Niacinamide increases underlying circulation to support the temporary volumizing of the skin on all areas of concern. The outcome is an increase in the skin surface exposed to the peel, resulting in an even deeper and optimized skin exfoliation. The Peel Prep Solution is a pre-peel must for securing the most optimal results possible. For all skin types, except sensitive.

INGREDIENTS: Witch Hazel
Marine Collagen
Niacinamide
Panthenol
Acto-Zyme™

BENEFITS & RESULTS:

- Ideal preparation step for all peels
- Exposes a greater skin surface for better peel performance
- Promotes an even exfoliation
- Maximizes peel outcome by enhancing results
- Delivers plumping effect

DIRECTIONS FOR USE:

- Professional Use:
 1. Cleanse the skin thoroughly with Medicalia's Gentle Cleanser and Gentle Toner. Blot dry.
 2. Cover eyes with small eye pads moist with cool water. Pads should completely adhere to eyelids.
 3. Soak a textured gauze pad with small quantity of this Peel Prep Solution and rub vigorously on the skin, concentrating on areas of concern for a preparatory micro-abrasion and to enhance the surface exposure to the peel. Do not rinse the skin.
 4. Proceed with peel application steps.

PRESENTATION: The Peel Prep Solution is presented in a:
8801-22 Professional Bottle of 4 fl oz - 120 ml

PROFESSIONAL MEDI-PEELS

Retinol & Hexylresorcinol Peel

PROPERTIES: The Retinol & Hexylresorcinol Peel is a powerful exfoliating formula for advanced aging signs. Containing one of the most recognized ingredients in the management of skin aging, Retinol as a derivative of Retinyl Palmitate (Vitamin A), this ingredient helps boost the epidermal cellular activity while encouraging hydro-retention within the skin for deep repair and restructuring. Hexylresorcinol from rye cereal, has long been recognized for its anti-septic and anesthetic properties, however, recent research has demonstrated it to be clinically proven to inhibit Tyrosinase and that it is up to four times more effective than Hydroquinone in lightening and controlling skin pigmentation for an even complexion. In a synergistic combination with Glycolic, Phytic, and Lactic Acids (which exfoliate and lighten the skin), this peel formula is ideal for effective and expedited skin rejuvenation. Indicated for advanced aging signs, elastosis, hyperpigmentation and melasma, scarring, photo-damage, and general resurfacing benefits. Recommended for Glogau IV classification. For best results, a series of peels may be necessary. Not for sensitive skin.

INGREDIENTS: Micro-Retinol® Lactic Acid Phytic Acid Sea Whip Extract
Hexylresorcinol Glycolic Acid Acto-Zyme™

BENEFITS & RESULTS:

- Anti-aging by excellence
- Resurfacing; ideal for photo-damage
- Lightens hyperpigmentation
- Firming
- Increases skin density
- Smooths skin texture, scars, and dilated pores

DIRECTIONS FOR USE:

- Professional Use:

1. Cleanse the skin thoroughly with Medicalia's Gentle Cleanser and Gentle Toner. Blot dry.
2. Cover eyes with small eye pads moist with cool water. Pads should completely adhere to eyelids.
3. Soak a textured gauze pad with a small quantity of Medicalia's Peel Prep Solution and rub vigorously on the skin, concentrating on areas of concern for a preparatory micro-abrasion and to enhance the surface exposure of the peel.
4. Pour one teaspoon (5ml) of Retinol & Hexylresorcinol Peel in a cup.
5. Using a cotton tip applicator, apply a thin layer evenly over face with medium pressure, especially on areas of concern. Lastly, apply on neck area if needed. Allow product to set for up to 15 minutes depending on skin type, condition, and tolerance. You may need to fan the treated areas if the patient experiences tingling or stinging sensations. Monitor peel progress on the skin continuously. If deep erythema or frosting (blanching) develops, or if the patient feels too uncomfortable with the peel, rinse treated areas with cold or icy water and immediately follow with Neutralizing Gel.
6. When the peel's time is up, rinse it off thoroughly using pads soaked in cold water.
7. Apply Neutralizing Gel all over treated skin. Using damp fingertips with cold water, work the gel gently all over the skin. Wait 2 minutes and then rinse the Neutralizing Gel thoroughly with cold water. Blot dry. For best results and to speed up the peeling process, do not apply a moisturizer.

CAUTION: *Intended to be administered by a physician or licensed aesthetician only. Advise the patient the skin will darken and visibly peel for a few days post treatment. It is highly recommended that the patient avoid wearing makeup for 24 hours post-peel. No topical prescriptions should be used until the skin has completely peeled off. Avoid direct and incidental sun exposure throughout the peeling process and after the peel. Avoid application of any skin care product(s) containing acids during and after the peel (as long as the skin shows any signs of sensitivity). On the days following the peel, treated areas must be cleansed only with the Gentle Cleanser. No moisturizer is needed, but Medicalia's Post-Operative Cream may be used in special cases if the patient experiences excessive skin tightness, pruritus (itching), or irritation. Use and application timing depends on the patient's skin type, tolerance, and sensitivity. Professional judgement is always imperative. This peel formula should be applied by an experienced professional or under a doctor's supervision. Once the peel is applied, do not leave patient unattended at any time. For safety reasons, gloves must be worn throughout the treatment. For best results, advise patient not to apply moisturizers at home unless strictly necessary.*

DISCLAIMER: *Strictly adhere to all of the above recommendations to assure a safe application. Subsequent or adverse reactions due to the misuse of any Medicalia peel are the sole responsibility of the professional performing the treatment.*

MEDICALIA[®] SKINCARE

PROFESSIONAL MEDI-PEELS

Collagen & Vitamin 'C' Peel

PROPERTIES: The Collagen & Vitamin 'C' Peel features a tech innovation formula that addresses most mature skin concerns. Containing one of the most popular ingredients in skin care, collagen polypeptides; instrumental for boosting skin resilience, hydration, and smoothing lines and wrinkles. Ethyl Ascorbic Acid, the latest oxidation resistant stable form of readily bioavailable Vitamin C performs as an excellent lightening and anti-aging active. It also co-factors the synthesis of skin collagen, while neutralizing free radicals and protecting the skin. In a synergistic combination with Glycolic, Phytic, and Lactic Acids which work to exfoliate and lighten the skin, this peel formula is ideal for effective and expedited skin rejuvenation. Indicated for most mature aging signs, wrinkles, hyperpigmentation, dryness and dehydration, and to address the detrimental effects most sun lovers and smokers face. Recommended for Glogau III classification. For best results, a series of peels may be necessary. Not for sensitive skin.

INGREDIENTS:	Marine Collagen Polypeptides Ethyl Ascorbic Acid (Vitamin C) Lactic Acid	Glycolic Acid Phytic Acid Acto-Zyme™	Sea Whip Extract
---------------------	---	---	-------------------------

BENEFITS & RESULTS:	• Anti-aging; anti-oxidant treatment • Plumps and restores skin density • Lightens hyperpigmentation	• Firming • Supports maintaining skin hydration
--------------------------------	--	---

DIRECTIONS FOR USE:

- Professional Use:
 1. Cleanse the skin thoroughly with Medicalia's Gentle Cleanser and Gentle Toner. Blot dry.
 2. Cover eyes with small eye pads moist with cool water. Pads should completely adhere to eyelids.
 3. Soak a textured gauze pad with a small quantity of Medicalia's Peel Prep Solution and rub vigorously on the skin, concentrating on areas of concern for a preparatory micro-abrasion and to enhance the surface exposure of the peel. Do not rinse the skin.
 4. Pour one teaspoon (5ml) of Collagen & Vitamin 'C' Peel in a cup.
 5. Using a cotton tip applicator, apply a thin layer evenly over face with medium pressure, especially on areas of concern. Lastly, apply on neck area if needed. Allow product to set for up to 15 minutes depending on skin type, condition, and tolerance. You may need to fan the treated areas if the patient experiences tingling or stinging sensations. Monitor peel progress on the skin continuously. If deep erythema or frosting (blanching) develops, or if the patient feels too uncomfortable with the peel, rinse treated areas with cold or icy water and immediately follow with Neutralizing Gel.
 6. When the peel's time is up, rinse it off thoroughly using pads soaked in cold water.
 7. Apply Neutralizing Gel all over treated skin. Using damp fingertips with cold water, work the gel gently all over the skin. Wait 2 minutes and then rinse the Neutralizing Gel thoroughly with cold water. Blot dry. For best results and to speed up the peeling process, do not apply a moisturizer.

CAUTION: *Intended to be administered by a physician or licensed aesthetician only. Advise the patient the skin will darken and visibly peel for a few days post treatment. It is highly recommended that the patient avoid wearing makeup for 24 hours post-peel. No topical prescriptions should be used until the skin has completely peeled off. Avoid direct and incidental sun exposure throughout the peeling process and after the peel. Avoid application of any skin care product(s) containing acids during and after the peel (as long as the skin shows any signs of sensitivity). On the days following the peel, treated areas must be cleansed only with the Gentle Cleanser. No moisturizer is needed, but Medicalia's Post-Operative Cream may be used in special cases if the patient experiences excessive skin tightness, pruritus (itching), or irritation.*

Use and application timing depends on the patient's skin type, tolerance, and sensitivity. Professional judgement is always imperative. PROFESSIONAL MEDI-PEELS

Phytic Acid & Acto-Zyme™ Peel

PROPERTIES: The Phytic Acid & Acto-Zyme™ Peel formula blends a superb combination of actives that promote progressive and proper epidermal exfoliation and skin lightening. Phytic Acid, naturally derived from rice is known for its distinct skin benefits: a keratolytic effect that exfoliates and reduces skin hyperplasia, retention hyperkeratosis on and around hair follicles, the stimulation of the cell's regeneration cycle that slows down with age, and a lightening effect that reduces the synthesis and the accumulation of melanin within the epidermis. Acto-Zyme™, is an enzyme and natural peeling agent for surface exfoliation that possesses stable proteolytic activity favored and controlled by the acidic pH of the skin. It diminishes keratin thickening. In a synergistic combination with Glycolic and Lactic Acids which exfoliate and lighten the skin. This peel formula is ideal for the effective and expedited smoothing of the skin's texture, lightening and clarifying, as well as general anti-aging benefits. Indicated for the epidermal hyperplasia, oily skin, acne-prone skin, solar keratoses, hyperpigmentation, post-inflammatory acne hyperpigmentation, fine lines and wrinkles. Recommended for all Glogau classifications. For best results, a series of peels may be necessary. Not for sensitive skin.

INGREDIENTS: Phytic Acid Lactic Acid Sea Whip Extract
Acto-Zyme™ Glycolic Acid

BENEFITS & RESULTS:

- Lightens hyperpigmentation
- Supports the management of oily skin
- Smooths skin surface and pore dilation
- Prevents and controls breakouts
- Anti-aging benefits

DIRECTIONS FOR USE:

- Professional Use:
 1. Cleanse the skin thoroughly with Medicalia's Gentle Cleanser and Gentle Toner. Blot dry.
 2. Cover eyes with small eye pads moist with cool water. Pads should completely adhere to eyelids.
 3. Soak a textured gauze pad with small quantity of Medicalia's Peel Prep Solution and rub vigorously on the skin, concentrating on areas of concern for a preparatory micro-abrasion and to enhance the surface exposure of the peel. Do not rinse the skin.
 4. Pour one teaspoon (5 ml) of Phytic Acid & Acto-Zyme™ Peel in a cup.
 5. Using a cotton tip applicator, apply a thin layer evenly over face with medium pressure, especially on areas of concern. Lastly, apply on neck area if needed. Allow product to set for up to 15 minutes depending on skin type, condition, and tolerance. You may need to fan the treated areas if the patient experiences tingling or stinging sensations. Monitor peel progress on the skin continuously. If deep erythema or frosting (blanching) develops, or if the patient feels too uncomfortable with the peel, rinse treated areas with cold or icy water and immediately follow with Neutralizing Gel.
 6. When the peel's time is up, rinse it off thoroughly using pads soaked in cold water.
 7. Apply Neutralizing Gel all over treated skin. Using damp fingertips with cold water, work the gel gently all over the skin. Wait 2 minutes and then rinse the Neutralizing Gel thoroughly with cold water. Blot dry. For best results and to speed up the peeling process, do not apply a moisturizer.

CAUTION: *Intended to be administered by a physician or licensed aesthetician only. Advise the patient the skin will darken and visibly peel for a few days post treatment. It is highly recommended that the patient avoid wearing makeup for 24 hours post-peel. No topical prescriptions should be used until the skin has completely peeled off. Avoid direct and incidental sun exposure throughout the peeling process and after the peel. Avoid application of any skin care product(s) containing acids during and after the peel (as long as the skin shows any signs of sensitivity). PROFESSIONAL MEDI-PEELS

Zinc & Peptides Peel

PROPERTIES: The Zinc & Peptides Peel features skin exfoliating, lightening, repairing, rebuilding and healing ingredients that are essential for acneic skin control and management of acne sequelae. Zinc PCA works to moisturize the skin, regulate sebum production to address excess oil accumulation, has skin antioxidant and immune strengthening effects, and acts in conjunction with Vitamin A to repair, heal and renew the skin. With the addition of a regenerating peptides complex comprised of Palmitoyl Tetrapeptide-5, Panthenol, Sodium Hyaluronate, and Dunaliella Salina, an algae extract that possesses antioxidant benefits, this repairing compound promotes healthy skin recovery and cellular reproduction, and delivers pro-anti-aging effects. In a synergistic combination with Hexylresorcinol, Glycolic, Phytic, and Lactic Acids which exfoliate and lighten the skin, this peel formula provides controlled keratolysis with epidermal texture renewal and follicular de-clogging. Ideal for the effective and expedited management of acne conditions, accelerated aging, and other skin conditions. Indicated for acne lesions, scarring, mild eczema and psoriasis, epidermal hyperplasia, oily skin, solar keratoses, hyperpigmentation, fine lines and wrinkles. Recommended for all Glogau classifications. For best results, a series of peels may be necessary. Not for sensitive skin.

INGREDIENTS:

Zinc PCA	Hexylresorcinol	Phytic Acid
Peptides Complex: Palmitoyl Tetrapeptide-5, Panthenol, Sodium Hyaluronate, Algae (Dunaliella Salina)	Lactic Acid	Sea Whip Extract
	Glycolic Acid	

BENEFITS & RESULTS:

• Management of acneic skin and sequelae • Lightening and anti-aging. Smooths skin • Heals and repairs	• Supports oily skin control • Controls surface and follicular bacteria • Reduces retention hyperkeratosis
--	--

DIRECTIONS FOR USE:

- Professional Use:
 1. Cleanse the skin thoroughly with Medicalia's Gentle Cleanser and Gentle Toner. Blot dry.
 2. Cover eyes with small eye pads moist with cool water. Pads should completely adhere to eyelids.
 3. Soak a textured gauze pad with small quantity of Medicalia's Peel Prep Solution and rub vigorously on the skin, concentrating on areas of concern for a preparatory micro-abrasion and to enhance the surface exposure of the peel. Do not rinse the skin.
 4. Pour one teaspoon (5ml) of Zinc & Peptides Peel in a cup.
 5. Using a cotton tip applicator, apply a thin layer evenly over face with medium pressure, especially on areas of concern. Lastly, apply on neck area if needed. Allow product to set for up to 15 minutes depending on skin type, condition, and tolerance. You may need to fan the treated areas if the patient experiences tingling or stinging sensations. Monitor peel progress on the skin continuously. If deep erythema or frosting (blanching) develops, or if the patient feels too uncomfortable with the peel, rinse treated areas with cold or icy water and immediately follow with Neutralizing Gel.
 6. When the peel's time is up, rinse it off thoroughly using pads soaked in cold water.
 7. Apply Neutralizing Gel all over treated skin. Using damp fingertips with cold water, work the gel gently all over the skin. Wait 2 minutes and then rinse the Neutralizing Gel thoroughly with cold water. Blot dry. For best results and to speed up the peeling process, do not apply a moisturizer.

CAUTION: *Intended to be administered by a physician or licensed aesthetician only. Advise the patient the skin will darken and visibly peel for a few days post treatment. It is highly recommended that the patient avoid wearing makeup for 24 hours post-peel. No topical prescriptions should be used until the skin has completely peeled off. Avoid direct and incidental sun exposure throughout the peeling process and after the peel. Avoid application of any skin care product(s) containing acids during and after the peel (as long as the skin shows any signs of sensitivity). PROFESSIONAL MEDI-PEELS

CAUTION For All Medi-Peels

**QUESTIONS TO ASK
THE PATIENT:**

1. Have you had recent sun exposure? Tanning beds?
2. Are you currently using Retin-A®, or any other topicals?
3. Are you currently taking Accutane®?
4. Are you currently using any antibiotics?
5. Do you have a past history of skincare problems?
6. Have you had any waxing, laser, or peels performed recently?
7. Are you currently using any products containing alcohol?
8. Are you currently using an exfoliating cleanser/product?
9. Have you recently experienced any skin sensitivity?
10. Do you have any allergies that you are aware of?

**INFORM THE
CLIENT TO:**

- Refrain from all sun exposure during the peel treatment series, and for 2 weeks after the completed peeling treatment series.
- Refrain from mixing different product brands, and use only the recommended home care products.
- Use only Medicalia water-soluble, alcohol-free cleansers, and other Medicalia products recommended by a physician.
- Avoid exfoliating cleansers/products.
- Discontinue the use of any Retin A® (Tretinoin) or retinoid-based product 2 weeks prior to commencing the peeling treatment series. Retin A® use can be resumed 1 week after completing the peeling series.
- Peeling series can commence 6 months after discontinuing the use of Accutane®.
- Completely avoid sun exposure, cold wind, and drastically hot/cold weather.
- Sunscreen must be used between/after treatment series. Skin subject to pigmentation must use a maximum strength sunscreen. SPF 30 is recommended.
- Avoid applying any skincare product on the same day of peeling treatment.
- Avoid salon treatments such as hair perms, color dyes, or other chemically-based treatments for 3 days after treatment.

**FOR THE TREATMENT
PROVIDER:**

- Carefully examine the skin for any irritability, redness, or existing lesions.
- Apply peel only on overall healthy skin, and healthy hyperpigmented areas. In case of doubt, refrain from application. Do not apply on presently peeled or laser-treated skin.
- Carefully observe the patient's skin after application.
- For sensitive skin, peel duration should not exceed 5 minutes.
- For other skin types, peel duration should not exceed 10 minutes.
- If patient experiences a "burning or intolerant sensation", immediately remove peel with cool water, and apply neutralizer.
- Do not perform any type of facial treatment in conjunction with peels.
- Do not utilize a Steamer, High Frequency or Galvanic Machine with peels.
- Apply peels as a stand alone treatment.
- Do not wax the skin before or after a peel. Shaving of a beard is permitted if performed at least 4 hours prior to peeling treatment.
- Apply peels in a very thin, even layer all over face and neck; do not overlap.
- Carefully apply the peel 1/2 an inch away from the eyes.
- Protect mucous membranes: apply a small quantity of the Gentle Cream on nostril openings and delicate lip areas.
- Protect eyes: cover eyes with properly-shaped pads moistened with water. Pads should completely adhere to the eyelids.
- Peels can be applied 1-2 times per week for a maximum of six applications (during a three week period).
- Do not exceed two applications per week.
- The peel treatment series can be repeated twice per year.
- The Medicalia CCH Mask is recommended after every peel application.
- Peels must not be applied on children under 16 years of age.

DISCLAIMER:

Intended for use by a physician or licensed aesthetician only. All above recommendations should be followed for a safe application. Subsequent or adverse reactions due to the misuse of a Medicalia peel are the sole responsibility of the professional performing the treatment.

MEDICALIA[®]
SKINCARE
PROFESSIONAL MEDI-PEELS

Neutralizing Gel

PROPERTIES: A necessary step to neutralize acids and balance the skin's pH after every Medicalia peel. Presented in a gel base, this formulation spreads easily without dripping and ceases peel activity, immediately bringing comfort and relief to the patient. For all skin types.

INGREDIENTS: **Sodium Bicarbonate:** pH adjuster, acid neutralizer
Glycerin: Humectant, moisture binding properties
Chamomile: Soothing and calming, anti-irritant

BENEFITS & RESULTS:

- Ceases peel action immediately
- Provides comfort and relief after the peel

DIRECTIONS FOR USE:

- **Professional Use:** *(wear gloves during steps)*

After thoroughly removing any of the Medicalia Peels, apply Neutralizing Gel all over treated areas. Using fingertips damp with cold water, work the gel gently all over the skin. Wait 2 minutes. Rinse Neutralizing Gel thoroughly with cold water. Blot skin dry.

PRESENTATION: The Neutralizing Gel is presented in a:
8806-22 Professional Bottle of 4 fl oz - 120 ml

– Algae (Dunaliella Salina)			

NEUTRALIZING GEL - pH 8.0

Ingredients:

Sodium Bicarbonate: pH adjuster; acid neutralizer
Glycerin: Humectant; moisture binding properties
Chamomile: Soothing and calming; anti-irritant

POST-OPERATIVE • PROFESSIONAL TREATMENT

Post-Operative CCH Mask Treatment

PROPERTIES: Deeply hydrating and repairing, this Collagen fiber mask, drenched with Aloe Vera, is by far the best natural energetic vehicle for traumatized skin. Rich in essential polysaccharides: Glucose, Manose, and Galactose, which act as conductors to direct biological activities among various molecules. Rich in amino acids: Phenylalanine and Tryptophane, referred to as wound-healing biogenic stimulators. Infused with minerals: Iron, Calcium, Potassium, and Manganese. Enriched with anti-oxidant vitamins: Vitamin C and Vitamin E. Aloe Vera reduces vasodilation, inhibits pain and inflammation, and stimulates fibroblasts to produce Collagen. Oxygenating, it radically activates the cells for better usage of Oxygen (O₂), while it soothes and reduces erythema. Highly recommended post-operatively after laser resurfacing, dermabrasion, post acid peels, chemical peels or any procedure that traumatizes the skin. An excellent treatment for any sensitive, hypersensitive, couperose or rosacea skin.

INGREDIENTS **Aloe Vera:** Soothing, calming, healing, hydrating,
PERFORMANCE: accelerates healing process
Collagen Fiber: Prevents and smooths wrinkles

**BENEFITS &
RESULTS:**

- Cooling
- Soothing
- Comforting
- Hydrating
- Healing
