DIGITAL PRINT SOLUTIONS

by  Lamitech

Lamitech

surface
materials

- Moving on to a new level of decorative custom durable surfacing
- Better Image Resolutions.
- Better Sharpness.
- Better tonality.

The ideal custom durable experience by combining state of the art digital imaging, with the qualities of high pressure thin or compact laminate.

Communicate, create and promote a unique visual experience for almost any interior or exterior environment.

Create spaces with a sustainable, multi purpose, long lasting, hygienic material.

Allow your customers to experience your brand with you in control of the surface color and imagery.

Our full range of HPL is Antibacterial, tested under the JIS Z 2108 method.

WHY CHOOSE YOU LAB!

Enhance branding & messaging
Guaranteed quality and longevity for signage, cabinetry, counters and tables that are a direct reflection of your projects.

Consistency of print & finish quality
Multiple sizes available! Cut, shape and use for any project ensuring a consistent and cohesive look throughout your interior and exterior spaces.

Unmatched ROI
Incredibly durable, significantly reducing the budget for replacement or maintenance of materials.

Easy to clean and maintain
Using soap and water, or common household cleaners.

Carbon neutral
Produced under a system that measures, controls and balances emissions. We compensate our footprint and favor the environment.

No minimum order quantity

Antimicrobial
Reduces up to 99.9% of microbes on the surface. Tested under the JIS Z 2801 method.

Moisture resistant

High resistance to impact

Sustainably produced from primarily renewable resources.

Applications

Interior

For indoor applications, it can be used both vertically and horizontally.

(In areas where it does not receive direct solar radiation)

- Corporate furniture
- Educational
- Health Care
- Hospitality
- Interior architectural panels
- Desks
- Closets
- Work surfaces
- Cafe or restaurant tables
- Displays
- Office partitions
- Toilet partitions
- Signage graphic solution, etc.

Exterior

Exterior use is exclusively vertical with UV protection and with anti-graffiti properties.

- Urban furniture
- Urban architecture
- Public parks, playgrounds
- Entertainment
- Tourism
- Educational
- Corporate
- Pots
- Facades, etc.

Portfolio

Available in thicknesses from 0.028" (0.7 mm) to COMPACT 3/4" (20 mm).

Dimensions:

4 x 8 ft / 4 x 10 ft / 5 X 12 ft

Finishes:

Gloss (GL), Matte (MT) and Polish (PL).

Not Postforming.

It can be ordered with special properties such as: dry-erase board, fire retardant, high wear resistance and UV resistance in vertical application. With the special properties the colors would change compared to a normal digital laminate.

Requirements

IMAGE QUALITY: High resolution (min. 300 dpi). It should ALWAYS be the same size of the design, or the image expected in the finished laminate.

SOURCES: Text fonts must be converted to curves and also be included (as links) in the file sent.

FILE FORMATS (Extensions) .TIFF, .PDF, .PSD, .EPS, .CDR, .AI, .INDD. Preferably avoid JPG files. Specify colors in CMYK model. Provide a single final file for each design.

PRINTABLE AREAS - LAMINATE DIMENSIONS:

Measurement requirements (feet):
3.94 x 7.94 ft (for 4 x 8 ft Laminates)
3.94 x 9.97 ft (for 4 x 10 ft Laminates)
4.92 x 11.94 ft (for 5 x 12 ft Laminates)

A bleed of 5 mm is recommended around the final image.

It is important that the artwork contains printed trim guides.

How does it work?
