

Medical

LIFE SCIENCE SOLUTIONS

TECO offers OEMs superior fluid automation/pneumatic Medical solutions that deliver precise repeatability, small footprint, low power consumption, and exceptional life expectancy.

About What we deliver....

We have 80+ years combined experience supporting **accurate product selection and sizing for medical application requirements**. We partner with numerous manufacturers to procure the best products for you. Lean on us when it comes to selection, knowledge, and experience. Call on us when you require quality design, assembly and production.

V A L V E S

Micro Valve

5.9 mm Width

Isolation Valve

Low Dead Volume

Proportional Valve

Repeatable to 2% F.S

Valve Manifold

Fast Assembly

Lever Valve

5.9 mm Width

Pinch Valve

5.9 mm Width

A C T U A T O R S

Pen Cylinders

From 2.5mm bore

Mini Cylinders

From 4.5mm bore

Guided Actuators

10 Million Cycles

Rodless Cylinder

Low Speed to 8 mm/s

Compact Cylinders

15 Million Cycles

Grippers

5.9 mm Width

Desktop Robots

3 Axis Compact

Tool Changers

World Lightest Weight

Liquid Pumps

High Precision

Air Filtration

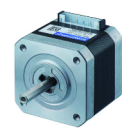

Large Flow/Compact

Air Pumps

High /Constant Flow

Motors

5.9 mm Width

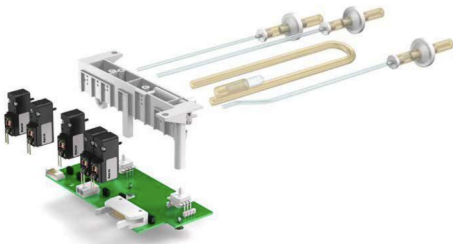

Products

Advanced Technology

01

Engineered Solutions

Our Engineered Solutions Group offers complete fluid handling and pneumatic system design, development and

02

Components

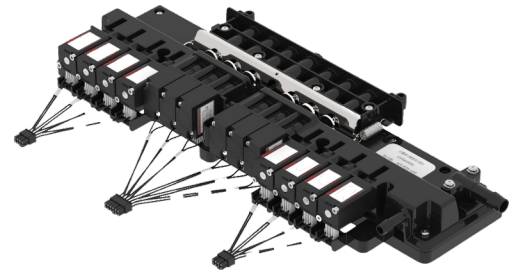

We are a full line supplier of fluid and motion control products and systems. We offer the products you need and the expertise to apply them properly in your application.

03

Integration

TECO works with our customers through all stages of the manufacturing process, including concept, prototype, production readiness delivery.

04

Brands

TECO represent leaders in the medical industry

 **KOGANEI**

Applications

Life Science

- Liquid Chromatographs
- Hematology Analyzers
- Fraction Collectors
- Automated Pipettes
- Mass Spectrometers
- Gas Chromatographs
- Chemical Analyzers
- Immunoassay Devices
- DNA Analyzers
