

# KombiSIGN 40 - Modular Signal Tower

## Your benefits

There is no need to compromise with the KombiSIGN 40, because WERMA has combined quick installation, excellent visibility and the highest level of flexibility in this product. This saves time and money with regard to installation and order logistics.

- Save up to 50% on installation time thanks to self-explanatory connections and intuitive mechanics
- Maximum flexibility despite a small number of variants
- TwinLIGHT and TwinFLASH combine two easily selectable light effects in one element
- In ClassicLOOK or DesignLOOK to suit all machine surfaces
- Clearly visible from all positions thanks to the OmniVIEW lens with no blind spots
- Pre-configured standard versions are available (common configurations as a complete tower with a single part number)

## Typical applications

Fault signalling

- on machinery and equipment
- on automated systems
- in assembly plants, for example, in the automotive industry

## Installation options

- Base mounting
- Tube mounting
- Single-hole mounting
- Additional Installation options using accessories

## Features

- Multicolour element offers up to seven colours in a single element
- High IP66/69k protection rating prevents ingress of dust and water
- Compact and high-output 95 dB siren
- Optionally available with IO-Link technology
- IP69k allows high pressure washing

# How to assemble your KombiSIGN 40 signal tower

## ClassicLOOK

► STEP 1  
Select the required optical or audible elements.  
Order numbers can be found on page 29.

### Audible Signal Element

- 8 tone siren
- 2 tone siren

### Optical Signal Elements

- TwinLIGHT
- TwinFLASH
- LED Permanent light element multicolour

► STEP 2  
Select the terminal element and appropriate mounting solution for your application.

► STEP 3  
Optional:  
Where appropriate, select the Extension tube.  
Can be installed between the terminal element and the mounting adapter.

► STEP 4  
Select mounting adapter as required.

► STEP 5  
Where appropriate, select the bracket.

## DesignLOOK

Further accessories can be found in our main catalogue page 64 or at [www.werma.com](http://www.werma.com).

# Overview Signal Towers

Whether they are used on machinery and equipment, manual workstations or for access control and point-of-sale systems, WERMA signal towers reliably signal different statuses, such as faults or material replenishment requests. Professional signalling provides your application with greater safety and security and considerably reduces response times. The urgency of the signal can be easily increased using different signal elements. This enables employees to immediately react to faults and quickly resolve any problems that arise.

Monitor your processes, make them reliable and keep them running - saving time and money. We call this intelligent signalling technology.

## Modular Signal Towers

Optical and audible signal elements can be combined flexibly in the modular signal towers. The modular design also enables customers to add other elements separately when required. The mechanical and electrical connection of the signal tower elements takes mere seconds thanks to the bayonet fitting.

## Completely pre-assembled Signal Towers

Completely pre-assembled WERMA Signal Towers can be ordered as a compact unit with a single part number, which reduces ordering and installation effort. Impressive features include their stylish design and diverse installation options, allowing them to be used in a wide range of areas.

# FlatSIGN - pre-assembled Signal Tower

## Your benefits

The curved front of the FlatSIGN signal tower housing enables it to blend in uniformly with machine and building service applications. The 160-degree visibility angle ensures exceptional visibility even from the side.

- Easy to install – also on flush-mount enclosures
- TwinLIGHT combines two easily selectable light effects

## Typical applications

Fault signalling or Access control

- in building service applications (e.g. server and equipment rooms)
- at access points in public areas

## Installation options

- Wall mounting
- Additional installation options using accessories

## Features

- Permanent or blinking light selectable
- Available with transparent housing or in metal design
- Optional integrated audible signal
