

Pneumatic | Automation | Hydraulic | Framing

TECO Technology specializes in motion control, automation components and systems. Our four product groups work collaboratively to provide solutions that meet your specific application requirements.

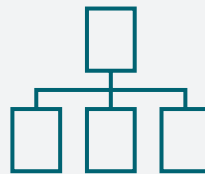

From concept through completion & beyond...

Product selection and sizing for optimum efficiency, size, cost & performance.

Integration Support, Prototyping and programming for streamlined commissioning.

Complete Documentation, Schematics, CAD models, drawings, diagrams and BOM.

Technical support, trouble-shooting and design revisions through equipment's life cycles.

TECO Expertise

Mechanical, Electrical and Application Engineers as well as Certified Fluid Power Specialists ready to provide expert assistance to meet increasingly strong demands on productivity, safety, efficiency and performance. Whether you're looking for the right solution, need lot traceability, proper documentation, the option of kitting, additional support or want to save time- our team is the answer you've been looking for.

Decreased
implementation
time as well as
overall costs

Services

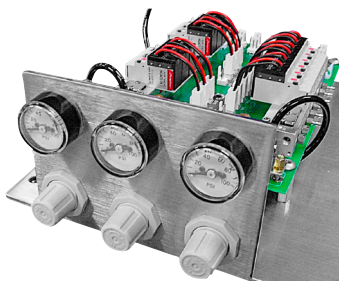

Assemblies, sub-assemblies & systems built, tested & fully documented to your specifications

Control Panels & Enclosures with Programming & Integration Support

Custom product solutions optimized to meet your specific application requirements

Product Types

Electric Actuators
Servo & Stepper Motors
Linear Guides & Slides
Low Profile Conveyors
PLC & Operator Interface
Machine Controls & Safety

Vacuum Products
Pneumatic Valves & Actuators
Fieldbus Electronics
Proportional Controls
Medical/Analytical Valves
Compressors & Vacuum Pumps

Aluminum Framing & Guarding
Automation Sensors & Vision
Valve Automation & Control
Hydraulic Hose & Fittings
Hydraulic System Components
Pumps, Motors, Valves & Cylinders

Industries Served

Packaging
Agricultural Equipment
Semiconductor
Industrial Automation
Energy & Utilities

High Tech
Mining
Wood & Pulp
Biomedical
Transportation

Food & Beverage
Manufacturing Equipment
Dairy Automation
Industrial Automation
Material Handling
