

Food & Beverage

AUTOMATION SOLUTIONS

TECO offers Food & Beverage processors and equipment builders a wide selection of products that meet the rigors of frequent washdowns and the hygienic standards required.

We offer sensors, stacklights, pushbuttons, actuators and more with an **IP69/IP69K rating**. This indicates that a product can withstand high-pressure, high-temperature water jets, and dust. We provide many corrosion resistant, **stainless steel** products, such as regulators, filters and cylinders.

About What we deliver....

We have 80+ years combined experience supporting **accurate product selection and sizing for your application requirements**. We partner with numerous manufacturers to procure the best products for you. Call on us when you require quality design, assembly and production.

Engineered Solutions

Our Engineered Solutions Group offers complete pneumatic system design, sensor selection, conveying and robotic systems and more.

02

IP69 & SS Products

TECO works with many suppliers that offer IP69 and SS devices - perfect for the food/beverage processing world.

- Aventics - valve manifolds, cylinders, piston valve
- Schmersal - interlocks, light curtains, push buttons
- Baumer - process sensors
- WERMA - stacklights & beacons
- SATECH - SS machine guarding

Are you looking to automate manual processes?

- Increase efficiency and productivity to reduce human error, streamline workflows and obtain faster processing
- Cost savings by reduced labor and improved accuracy

We offer the Kassow Bosch Rexroth collaborative robot with a 7th axis, offering the highest possible degree of freedom to optimize every inch of reach. **Cobot Advantage:**

- Easy to install and cost effective
- Safely operates alongside humans in shared workspace
- Better than humans in terms of accuracy, speed and consistency

From **Palletizing** to **Quality Inspection** to **Pick & Place** - TECO and Kassow have a solution for you. Let's talk!
