

## Yamaha YZF Swing Arm Guard Installation

1. Remove rear wheel
2. Unbolt chain guide and slide up chain out of way
3. Using the supplied spacers (2), with (2) supplied M6x55 bolts, assemble guard to bike chain guard in place (fig 2). Stock M6 nuts to be used.
4. Assemble and mount chain guide using (2) supplied M6x55 bolts, (1) M6x20, and the stock nuts. You will also need to use supplied washers (3, MAY NOT NEED ALL 3)) on rear bolt hole to shim to the guard and chain guide if using the stock chain guide. (Not needed if using a TM designs Chain guide)..Loctite all bolts and tighten.
5. Remount rear wheel.
