SUBSCRIBER'S LETTER

Magalie aka MissMoon

" Based in Nîmes (South of France) I'm a DJ since 1996 under the alias MissMoon. I play an underground sound inspired by Detroit Techno and Chicago House. I was part of the Soulbag Crew adventure with the Nîmes DJ collective in the mid 2000s and the Soulbag Records vinyl shop. I'm a vinyl fan and I only play on vinyl.

I started mixing in 1996 with my boyfriend Olivier (RIP). Back then we used to go and mix at a friend's house who had some Technics turntables. They introduced me to mixing and digging in vinyl shops. Then I started out in the bars of my town, particularly the Africatek where I played regularly.

I used to go out a lot to Club Fantasia or Concept Club (formerly Marinella in Nîmes). My husband Olivier built the first subwoofers for the Fantasia (he was a carpenter). Thz "Temple" in Nîmes was also a place that left its mark (people came from Amsterdam, Belgium...).

A little further afield, I also went to Le Bus in Montpellier, the Wizz in La Grande Motte and I used to frequent vinyl shops like the shop of Thony (THCV Records) in Nîmes or WAX Records owned by Jack de Marseille.

We'd never go a weekend without recording our mixes on K7, then we'd go round the record shops and pick up flyers and info on parties, venues, djs... we'd follow the infoline and let's go!

When we didn't have enough money to go out, we'd have a night of studio. Olivier bought the mytic TR-909 Roland from Cash Converter for the modest sum of 700 francs (80eur) - it was crazy! Then he found his little sister, the TR-707, and we went crazy with these drum machines. I remember that you could plug the TR-707 into the cigar lighter of your Renault 19 and I'd practice in the car and we'd be completely turned on, but that was just part of the fun at the time!

Magalie in the 90s

My five stars DJs back then:

Kelli Hand, Green Velvet, Dj Sneak, Josh Wink, Roussia, Paul Johnson, Jeff Mills, Miss Kittin, Joey Beltram, Dave Clarke, Eva, UR, Kenny Dixon Junior, 100 % Isis, Robert Hood, Steve Rachmad, Miss Monica, D'julz, Jeff K, Jerome Pacman, Jack de Marseille, Miss Djax...

I wasn't able to go to the Borealis nights because I wasn't in Nîmes at the time. Olivier used to tell me about these incredible nights. I used to go to a lot of Dragon Ball raves, it was crazy!

A life changing event : **Arènes 2000 (Futura Prod)**

The event that made the biggest impression on me was "**Arènes 2000**" in the historical Nîmes Arena on New Year's Eve 1999 with **Kenny Larkin**. I was a young DJ and I was very impressed by the 30 kilos of quadrasonic sound, the freevox as a mixing desk, 6000 people in front of me. I had a lot of emotions, stress and fear of missing a sequence during my mix. But it was a great joy and a source of pride to be playing in my home town with a Detroit legend, in this historic place. The passage to the year 2000 was quite a symbol !

A word about the 90s techno page ?

Thank you for inviting me to this retrospective. I immersed myself in our rave years with a lot of emotion and joy. I hope I've been able to capture the passion of that time. I'm a fan of the page and I'm not a nostalgic person by nature, but I love the archive aspect of the page and the unusual photos. Long live 90s techno!" ■

The elders knew how to read the signs. They used the amphitheatre on the crossing of multiple ley-lines making a focus for communication and an amplifier for positive energy. The ancient knowledge handed down from the Romans blend with modern science, the magic treatment will be achieved in technology to welcome you into a 4th dimensional communion.

This is Borealis 95 where the Arena is heaven and where the Ancients are Gods.
