

Riverside County Nonprofit Assistance Fund & Nonprofit Roundtable

The Riverside County Nonprofit Roundtable provides guidance to the County on policy, funding, and partnerships that affect the nonprofit sector.

What We Do

The Nonprofit Assistance funding (RCNAF) category was established to continue the County's efforts to strengthen, expand, and support the local nonprofit sector to amplify their philanthropic roles which have played a critical role in response to the challenges posed by the COVID-19 pandemic. The Riverside County Nonprofit Roundtable (RNCNR) was established to build a formal, one of a kind, public-private-community partnership.

Our Primary Goals

Expand financial support and build philanthropic dollars for nonprofits to ensure their fiscal viability and continued capacity to deliver services during the economic recovery and bring in more opportunities for additional funding.

Strengthen partnerships with local nonprofits and work with them on large-scale local initiatives and the provision of community services.

Assist the nonprofit community with technical assistance to achieve greater and more sustainable impact.
