

Rubber Rejuvenator

Cleans, revitalizes, restores and protects rubber rollers

Burnishine's Rubber Rejuvenator is an ideal product for cleaning, revitalizing, restoring, and protecting rubber rollers. The aerosol can is easy to use and gives fast results, helping to improve productivity.

FEATURES BENEFITS:

- ◆ Quickly cleans, revitalizes, restores and protects rubber rollers
- ◆ Removes glaze from gum, friction, ink, coatings and oxidation
- ◆ Conditions for better flexibility and grip; reduces slips
- ◆ Prolongs roller life
- ◆ Versatile! Works on press rubber rollers, scanner rollers, trays, rubber parts in laser or inkjet printers, platens, copiers, postage meters, adding machines, blankets, feed rollers, fuse rollers and more!
- ◆ Comes in 10 oz. aerosol cans
- ◆ Made in the USA

Directions: Remove all ignition sources and electricity before using. Remove cap. Firmly insert extension tube. Hold can in upright position. Spray 6-8" from surface and wipe off. For heavily soiled surfaces, allow to sit for 30-45 seconds before wiping off excess.
