

PRODUCTS

MiniTrenchers specializes in portable and efficient digging equipment. Whether you need to dig underneath concrete with the SiBore Drill or trench your way through the outback, you are covered!

SiBORE™
DRILL

The Original

GEOripper®
(Engine Included)

GeoRipper® T/A

Convert your Makita®, Husqvarna® or Stihl® concrete saw into a handheld minitrencher in just five minutes! With added safety in mind, GeoRipper® T/A is equipped with the EZ Kart by MiniTrencher, safety bar and dirt deflection system to keep the soil on the ground, fingers away from moving parts and backs from being over-stressed.

Features:

- ✓ Increased productivity over hand-digging
- ✓ Decreased injury over hand-digging
- ✓ Self-sharpening digging teeth for tree roots up to 75mm[3"] in diameter
- ✓ Remove rocks up to 100mm[4"] in most soils
- ✓ Works in all soils like sandy, clay, rocky and loam
