WINDOW CURTAINS

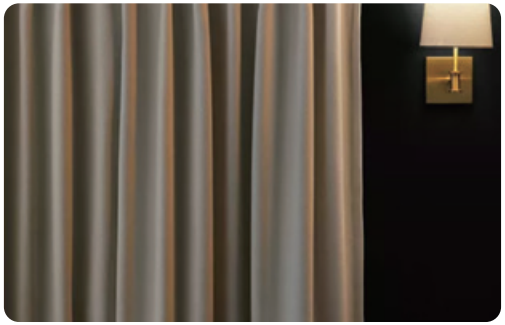

Sheers

Light-Filtering

Blackout

Window Curtains: Our Curtain collection introduces sophistication toevery interior with luxurious fabrics and silhouettes.Five styles and 500+ exclusive materials available.

ROD PACKET

Rod Packet: In this style, a pocket is sewn at the top of the curtain panel. The curtain rod is inserted through this pocket. It gives a clean and simple look. The fabric gathers softly above the window.

GROMMET

Grommet: Curtains with grommets have metal rings sewn into the top. The curtain rod goes through these grommets. This style is modern and allows for easy opening and closing of the curtains.

PINCH PLEATED

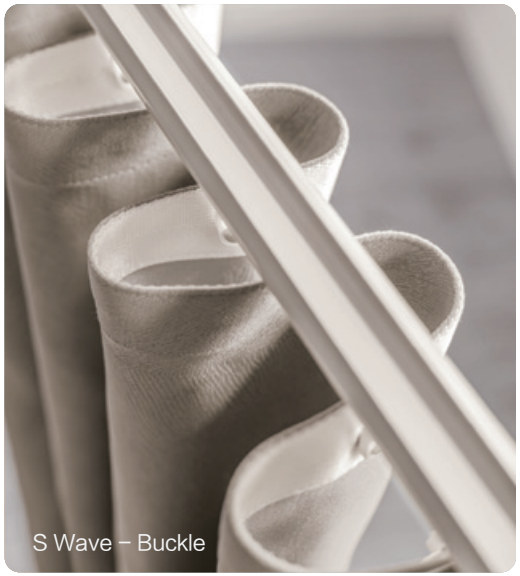

Pinch Pleated: This is a more formal style where the fabric is pleated and held together by hooks or clips. It gives a luxurious look and is often used in more traditional or elegant settings.

S WAVE

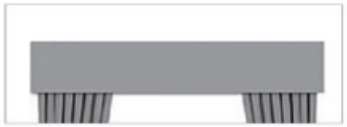

S Wave – Gauze belt

S Wave – Buckle

S Wave: lt creates a soft and romantic look with S wave shape, which can add a dreamy and charming atmosphere to the room, especiallysuitable for bedrooms or spaces where a cozy and relaxing feel is wanted.

CURTAIN POLES TRACKS & ACCESSORIES

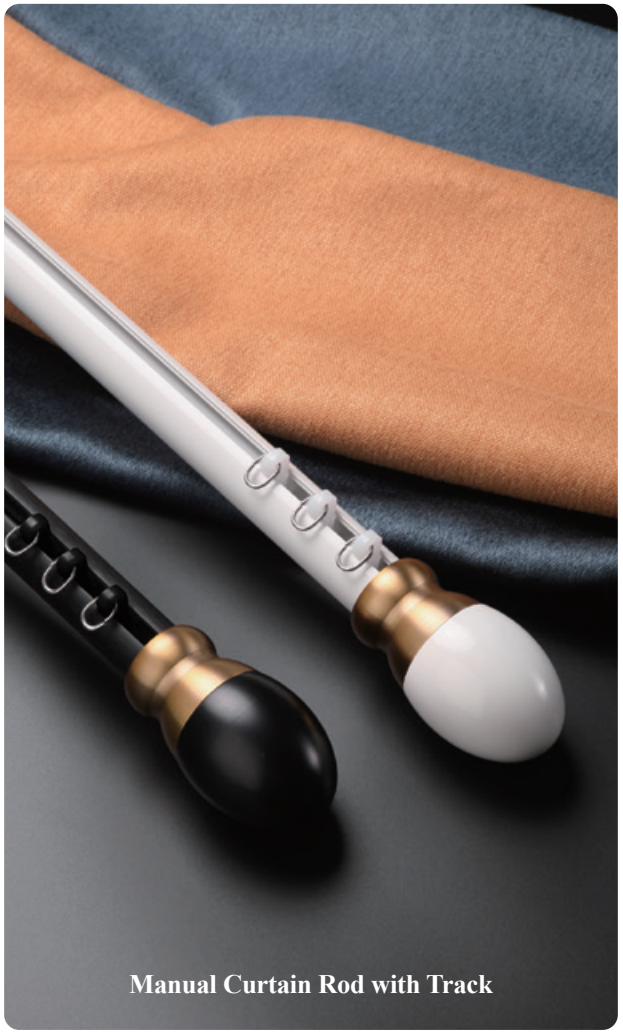

Curtain Poles Tracks & Accessories: Finish your look with the finest curtain accessories available. A variety of refined favorites and modern classics to match every window treatment type.

Manual Curtain Rod with Ring

It has a simple and classic design that's easy to operate by sliding the rings by hand. Cost-effective and versatile, it fits multiple styles and works well for light to medium-weight curtains, adding a timeless charm.

Manual Curtain Rod with Track

Featuring smooth sliding and enhanced stability, it's space-saving and durable. With a clean and streamlined look, it's great for longer or heavier curtains, ensuring neat operation.

Motorized Curtain Rod

Convenient with automated control via buttons or remote. Allows precise positioning, has a modern appeal. Quiet operation and customizable settings to suit daily life and preferences.

Manual Single Curtain Track

Provides a straight and tidy appearance, easy to install with simple tools. Cost-efficient and suitable for various curtain fabrics, flexible in placement for different room layouts.

Adjustable Curved CurtainTrack

Designed to fit curved windows, customizable to match specific shapes. Ensures smooth curtain movement, enhancing visual appeal and durable for long-term window treatments.

Motorized Curtain Track

Offers automated operation, precise and programmable functions. Quiet and smooth, with a stylish look. Some have safety features, ideal for modern and convenient home decor.

Double Curtain Track

Enables hanging two layers of curtains simultaneously, optimizing space usage. Durable and ensures a coordinated look. Easy to operate for flexible light and privacy control.

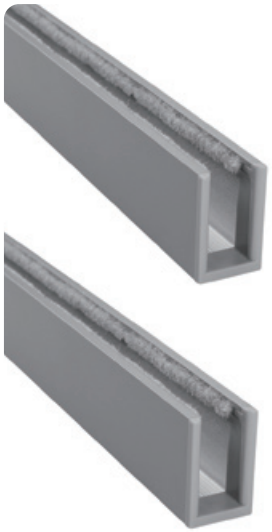

Curtain Track with Valance

The integrated design combines track and valance, hiding hardware for a clean look. Decorative and good at light/privacy control, also space-saving and versatile in installation.
