Digital Wallcoverings
Reimagined

one vision

For over 25 years, we have been creating wallcovering solutions for commercial interiors with the power to transform even the most basic space into an experience.

But the truth is, what makes our projects most special is the collaboration with you. You inspire us to help you create stunning rooms and one-of-a-kind spaces that change the way we interact with our environment.

This book is dedicated to the artists, designers, architects, specifiers, and visionaries that continue to improve the space around us all and bring art into our everyday lives.

**one team. one goal. one vision.
interiors people rave about.**

eco wallcoverings

Durable. Impactful. Environmental.

You don't have to sacrifice quality or creative expression for eco-friendliness. Our **ECO Wallcoverings** combine **UL GREENGUARD Gold Certified** inks with **Clean Vinyl Technology™** ("CVT") base materials. CVT materials replace chemicals typically found in vinyl wallcoverings with safe alternatives.

- LBC Red List Chemical Free
- Improved Indoor Air Quality
- Contributes to LEED v4 Low Emitting EQ 4.2

great idea for pop gloss:

Try using **pop gloss** to tell a story on your walls! Instead of just glossing certain elements of a design, use pop gloss to **create an entirely new element** like the words shown here.

Then watch as that **image flows in and out** of your vision as you move along the wall!

See pop gloss in action!

All of the words are created by printing pop gloss over the background colors. The words flash with intensity as the light dances across them!

wall protection

Is heavy traffic wrecking your walls?

We've got you covered with **Targa**.

Targa is a clear PETG sheet, .040" thick, with the **image printed on the back side** of the material, **encapsulating it** against the wall and protecting it from wear and abrasion.

These **rigid panels absorb the impact** from objects like hospital gurneys, luggage carts, and more, maintaining the integrity of the wall. It can be installed with the panels butt-fitted together or with optional trim pieces available through Level.

Any design in the Level collection can be **specified with Targa** as its base material!

Stain Resistant

Impact Resistant

Withstands Most Scratches & Gouges

Bacteria & Fungi Resistant

Easily Cleanable with a Wide Range of Cleaners

Class A Fire Rated

Meets CA 01350 Standard for Indoor Air Quality

Completely free of Phthalates, Both Halogenated and Bromated Fire Retardants (HFR & BFR), Persistent Bio-accumulative Toxins (PBT), Bisphenol-A (BPA)

Targa is available in both **4' x 8'** & **4' x 10'** sheets and is **precision-trimmed** at the factory. It's an ideal solution for wall surfaces that are susceptible to damage in high traffic areas:

- Hospitals & Medical Offices
- Restaurants & Dining Halls
- Hotel Elevators & Lobbies
- Schools & Universities
- Gyms & Fitness Centers
- Airports & Public Buildings

ABOVE CHAIR RAIL: L16-1205 Calming Aura - Sunny Day | Printed on vinyl.
BELOW CHAIR RAIL: L16-1003 Styled Stripe - Midori | Printed on Targa.

something to consider:

Since most **damage from luggage, gurneys, carts**, etc. is on the **lower half of the wall**, try **Targa as a wainscot** below chair rail height. Then **use ECO or vinyl** above the chair rail where there's less need for protection.

coordinating products

Did you know?

Our extensive product line gives you incredible creative freedom! Try coordinating different products to address the needs of your entire space.

Glass partitions? Complement your mural on the glass with a coordinating design printed on **window film**.

Need Sound Control? Use **acoustic panels** with a mural design on top of a wall covered in a coordinating pattern.

Looking for **gallery wrapped canvas** art? We do that!

Or simply try using one of our embossed repeat **pattern designs below** a chair rail and a **mural design above** as shown here!

And **don't forget the ceiling** – that's a great place to add some coordinating acoustics.

liner notes: beach times

These whimsical beach-goers will transport anyone to thoughts of fun in the sun.

But if they just aren't your style, we'll gladly remove them all and you can have the beach all to yourself.

That's custom made easy!

level & SANFOOT wood veneer

Inlay effect achieved by printing images of different veneer species onto real veneer.

Creating a high-end space meant to impress?

Sanfoot wood veneer is the industry-leading choice! Natural beauty combined with a hard-wearing finish makes Sanfoot ideal for walls, ceilings, accent panels, and furniture too.

Now you can add Level to any Sanfoot project! Veneer murals, custom colors and stains, patterns, logos, inlay effects, and more! Together, Level & Sanfoot give you unparalleled creative options!

Perfect for headboards and other architectural elements!

Great for logos and stain effects, or even solid stains like this desk!

high-end look on a budget

Check out our high-resolution scans of real wood veneer printed on any of our materials! A great budget option where real wood can't meet performance or durability requirements, like high-traffic areas.

Print the veneer alone or use it as a background with a Level design!

Add metallic and pop gloss effects to your wood!

Print on acoustic panels to create faux wood beams or dimensional faux wood panels where sound control is needed.

In tall spaces, use wood veneer images in combination with real wood: Real wood at eye level and veneer images up toward or on the ceiling.
