

Brush Size Guide

What size to use and where for:

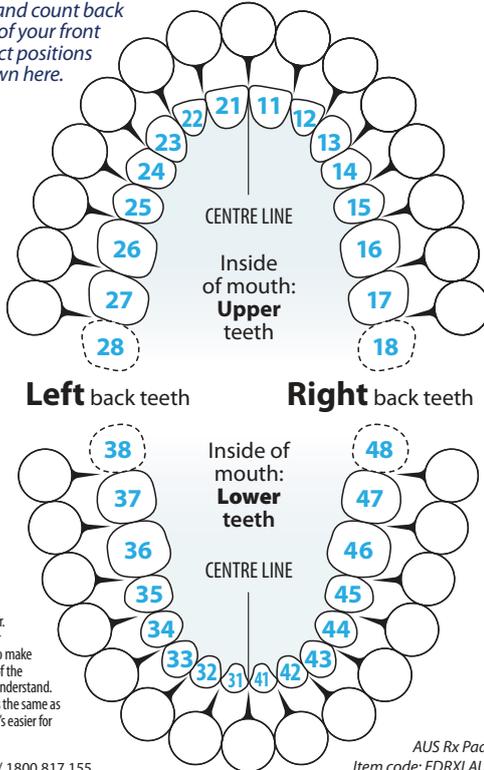

Name

Notes

Check in the mirror and count back from the centre line of your front teeth to find the exact positions and brush sizes shown here.

Brush sizes

- 000
- 00
- 0
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9

Clinicians: Please mark the circle with the desired brush size number.
Please note: This chart is a mirror image of normal dental charting to make the left side teeth on the left side of the chart so it is easier for patients to understand. Note also the colour sequence runs the same as the endodontic files sequence so it's easier for you to remember.
