## Returns

To arrange the return of any item, please call customer services on 01527 878348 within 48 hours of receiving your delivery. All goods must be returned in a saleable condition. Some items may be non-returnable or incur a re-stocking charge so please take detailed care that you are ordering what you require. Food products are non-returnable.

## Carriage Terms

Free delivery is available on orders over £30 - orders under £30 have chargeable delivery at £4.95. Same day shipping is available for £9.95 on orders placed before 10am in our West Midlands area. Find all our shipping details on our website.

## Environmental Policies

We take our share of responsibility in caring for the environment. That's why many of the products in this catalogue are produced from recycled materials; look out for the familiar symbol. We source copy paper from sustainable sources. Even this catalogue is produced from FSC accredited paper!

## Terms and Conditions

We extend automatic credit accounts to local authority sponsored organisations. Terms of payment are 28 days following date of invoice. All prices are net and subject to VAT unless otherwise stated.

**Prices are correct at time of printing and are subject to change without notice - please check our website for current pricing.** Goods are offered subject to availability and are supplied subject to our full terms and conditions, a copy of which is available on request.

## Free COSHH Training for cleaning chemicals

COSHH training is designed to **educate** and equip individuals and companies with the knowledge necessary to **handle hazardous substances safely** and **comply with regulations**.

### Why is it important?

For the **safety** of your teams' and students' health; to **protect** the environment from the negative effects of chemical contamination; and to **improve** operational efficiency by preventing accidents.

### What will you learn?

Risks associated with chemicals

Chemical storage & handling

Using PPE correctly

Chemical symbols & meanings

Best practices, plus dos & don'ts

*and more!*

# Cleaning & Hygiene Reviews

A comprehensive review of your cleaning & hygiene products and processes to ensure you maintain an efficient and hygienic environment!

## Why book a cleaning & hygiene review?

### Reduce Costs

Reduce the amount of products you're using to save on costs!

### Save Time

Review your processes to make your cleaning more efficient

### Protect the Planet

Choose products that reduce single-use plastic and contamination

## Problems We Solve in Schools

### High Costs / Waste

Keep school washrooms cleaner, safer, and more cost-effective. Our smart solutions reduce misuse, cut waste, and help your budget stretch further.

### Unpleasant Odours

Stop masking bad odours and poor hygiene with quick fixes. Our school washroom solutions tackle smells at the source and promote better hand hygiene, creating cleaner, safer spaces for students.

### Blocked Drains

Uncontrolled toilet roll dispensers can lead to overuse and blocked drains. Our sheet-at-a-time dispensers reduce wastage and our Flutech toilet paper dissolves quickly, helping you avoid costly blockages.

### Out of Stock?

Unplanned ordering and slow deliveries can lead to running out of essential hygiene supplies. Automating your ordering with monthly standing orders helps you get ahead of the game.

# Celtex Washroom Systems

Designed to address the common challenges within schools and educational settings, Celtex hygiene paper systems restrict over-usage and improve sustainability, as well as improving user comfort to promote personal hygiene.

Since introducing the Easy Pull toilet paper, we've eliminated issues with blocked toilets that were common before. We've also noticed a great reduction in usage and waste.

Forward Education

REVIEWS.io

"Harvington First School chose Forward Products as our cleaning and hygiene products provider six months ago and my only regret is that we didn't do it sooner! The chemicals and other products are first class - very effective as well as being eco-friendly. Ordering is straightforward, speedy and there has never been an instance when a requirement was 'out of stock'. All of this is supported by a positive and cheerful team for whom nothing is too much trouble."

Forward Education

★REVIEWS.io

"I have been using Forward Products for a number of years now and they are absolutely fantastic. The order process is so straight forward (no pun intended) and the website is really user friendly. If you cant find what you need, customer services are always more than happy to help and everyone I've dealt with have always been so very helpful and polite. The products themselves are good quality and the prices are very competitive with next day delivery. Even the delivery driver is pleasant and always puts everything away for us, no request is too much for him! I would highly recommend this company for educational supplies. You wont be disappointed :-)"

## QUICK GUIDE | Rotary Floor Cleaning Machines

- Rotary floor machines come in different forms, for different tasks. Here's a quick guide on which type you need for various applications:
- Slow Speed Machines are typically 120-200rpm and are used for stripping polished floors, wet scrubbing floors and bonnet buffing carpets. The slow speed machine is an important machine in the cleaning teams armoury. You cannot wet scrub or strip floors with a high speed machine, it must be slow speed - a high speed machine will give a 'bow-wave' effect where the solution goes everywhere!
- High Speed Machines are typically 350-500rpm and are used for buffing, polishing and spray cleaning. If you have polished floors to maintain you cannot buff or polish with a slow speed machine.
- Twin Speed Machines are the best of both worlds - at the flick of the switch you can change between slow or high speeds. In effect this is two machines in one, making it very versatile.
- Ultra High Speed Machines are quite different and are generally well in excess of 1500rpm. The pads float on the floor, often with the weight of the machine taken by a set of wheels. These machines are used for buffing/polishing, spray cleaning and diamond polishing. These are easier to handle compared to the High Speed and need little skill. They will produce the highest gloss shine on a polished floor, however they are not that good at removing heavy scuff marks, the High Speed, with the extra weight on the floor, is better here.
- Orbital Machines work in a similar way to an orbital sander which means you can both polish and scrub with the same machine. These machines are generally very easy to handle.

### QUICK GUIDE | Melamine Floor Pads

Melamine sponges are made from exactly the same material as magic sponges. These are incredibly effective at removing marks and performing deep cleaning tasks with just plain water. To use the pads wet the pad, attach to the machine and use as normal with plenty of water through the machine (if you are using a scrubber drier, turn the solution control to maximum).

If you have a floor where conventional chemical and floor pads aren't cleaning the ingrained dirt, give these a try - they are great problem solvers. Light coloured safety flooring will come up brilliantly with these pads. Melamine pads can also be used to take polish off polished floors depending on the floor type.

Try the 6" pads on the Power Brush XL shown on page 358, it lifts ingrained dirt out of safety flooring in toilets exceptionally easily!

Forward Education

"Harvington First School chose Forward Products as our cleaning and hygiene products provider six months ago and my only regret is that we didn't do it sooner! The chemicals and other products are first class - very effective as well as being eco-friendly. Ordering is straightforward, speedy and there has never been an instance when a requirement was 'out of stock'. All of this is supported by a positive and cheerful team for whom nothing is too much trouble."

Bringing Learning Spaces to Life

# Your Educational Furniture Specialist

At **Forward Education**, we transform spaces and create positive learning environments for students to thrive. With years of expertise in schools and higher education, we combine functionality with style, delivering results that inspire and last.

## The Process

1

### Face-to-Face Consultation

To understand your unique needs and vision.

2

### Discuss Requirements

Define your space and furniture needs in detail.

3

### Product Options & Colour Pick

Expert advice for furniture, fabric, and finishes.

4

### CAD Drawings

Visualise your space with 2D and 3D designs.

5

### Proposal

A clear plan outlining costs, scope, and timelines.

6

### Deliver to Installation

We handle everything, from delivery to install.

7

### Project Completion

Your space is ready to use, exactly as envisioned.

# Case Study

## Secondary School and Sixth Form Transformation

The school wanted a learning environment that sparks creativity and enhances the student experience. Forward Education brought this vision to life, refreshing study and social spaces with modern designs tailored to the students' needs. From consultation to installation, we handled every detail to make the process effortless. Collaborating with students ensured the final design met their expectations, creating spaces that inspire and energise.

## Useful things to remember!

All classroom and office furniture is made to order so it is important to ensure that the correct size and type of furniture is ordered.

Delivery times fluctuate throughout the year with lead times being extended during peak months (June to September).

A photograph of an outdoor courtyard area in front of a brick school building. The courtyard is paved with light-colored concrete tiles. In the foreground and middle ground, there are several sets of outdoor furniture. On the left, there are rectangular wooden tables with black metal frames and matching wooden benches. In the center and right, there are round wooden tables with black metal frames and matching wooden benches. The background shows a two-story brick building with large windows and a glass entrance. A sign above the entrance reads 'SCIENCE'. A white pillar stands in the courtyard. The sky is overcast.

# OUTDOOR FURNITURE

## **Bringing learning spaces to life - inside & out!**

Create inspiring outdoor spaces with our range of furniture! From picnic benches to playground seating, we're here to help schools make the most of their outdoor areas - enhance learning environments, create social spaces, and upgrade playground seating, with outdoor furniture is built to last.
